Prentiss M. Brown

United States Senator Prentiss M. Brown, is a candidate for re-election on the Democratic ticket.

He is a man whose courage, leadership, ability have won him nation-wide acclaim. The President and the people need him in the Senate, and all patriotic citizens should vote for his re-election.

The outstanding leadership of Senator Brown in securing the speedy passage of price control alone would entitle him to re-election. His years of experience, his seniority and standing in the Senate, his membership on important committees, assure the citizens of Michigan of capable and effective representation.

Judge Ferguson, the Republican candidate for United States Senate, is now and has been for more than ten years past a Circuit Judge of Wayne County, Michigan, drawing a salary of $15,500 per year and has a commission to so carry on for the next five years.

The people of Michigan by their constitution, Article 7, Section 9, provides that, "Circuit Judges shall hold office for a term of six years. They shall be INELIGIBLE TO ANY OTHER THAN A JUDICIAL OFFICE DURING THE TERM FOR WHICH THEY ARE ELECTED AND FOR ONE YEAR THEREAFTER." A wise and far-reaching provision, to endeavor to keep Judges out of politics and above suspicion.

Judge Ferguson, seeing a few years ago his defeat, if running as a partisan, was a prime mover in taking Judges wholly out of politics and electing them by non-partisan ballot, through a constitutional amendment adopted before he again sought the Judgeship.

If Judge Ferguson, who now holds, temporarily, powers far beyond those of the average citizen, and who is now being paid $15,500.00 per year salary, does not and will not respect the solemn constitutional oath he has taken, not to seek or hold any office except a judicial office for the term he was elected and one year thereafter, then all true patriotic citizens irrespective of party affiliations should repudiate his efforts to become Senator.

America—now of all times—needs men like Senator Brown, tried statesman, not just office seekers, who are able to support our President in winning this war.

Harry F. Kelly has made his position clear on three more important issues:

ON EFFICIENCY:

"If I am elected Governor, I shall see that no unnecessary manpower is wasted in government while Michigan pleads for manpower in industry and on farms during these critical days."

ON SMALL BUSINESS:

"I shall seek to remove the yoke gradually crushing small business, by eliminating the needless State governmental interferences now imposed upon it. I shall enlist the good judgment of small business representatives in the administration of State affairs."

ON GOVERNMENT:

"I contend that the Governor owes a very definite duty to every political subdivision of his State; that every one of Michigan's 83 counties deserves from its Governor an awareness of its individual problems and a willingness to help in their successful solution."

EVEN IN ORDINARY TIMES the Governorship calls for competent leadership. Now with the Nation at war and with Michigan's important role in the war effort, the responsibilities of the Governorship can only be met by a man who has the vigor to get *things* done.

Governor Van Wagoner's experience as Governor and as State Highway Commissioner for eight years assures you that he will get things done — and RIGHT!

Here's What It Means to You

1. Ability to pay off the State's $27,000,000 debt means value received for your tax dollars.
2. Well directed Civilian Defense means protection for you, your home and your family—no matter what comes.
3. Close co-ordination of Michigan's all-out war effort means all-out delivery of war tools to our men on the fighting fronts.

The Record of 18 votes against our country, according to the Union For Democratic Action. Is this not Aiding the Enemy? Did even Max Stephan do as much as this?

Do the Japs or Hitler need clearer evidence of opposition within our government? Do you want to live under Japanese rule? Or do you prefer that such as many of the Nations of Europe must endure? France, Denmark, Belgium, Norway, Holland, and Greece?

Is it not Time for Clear Thoughts and Action instead of Partisan Hatreds? Let's be Americans!

In opposing the fortifying of Guam, Michener not only voted against the bill, but also urged other Congressmen to do likewise, stating at that time: "I VOTED AGAINST THE AUTHORIZATION OF THE ADDITIONAL BATTLESHIPS WHEN THE 1938 ACT WAS UP, I SHOULD DO LIKEWISE TODAY."

His voting against building 1,283 planes in 1939 causes us to wonder how many Husbands, Sons and Brothers have lost, and will lose, their lives.

Do you recall Michener's utterance when the Commander-in-Chief, after waiting for months, informed Congress if they did not enact anti-inflation laws within 30 days he would issue a decree? According to the Ann Arbor News, Michener stated he was going to see if the Commander-inChief would keep his promise. Instead, however, he voted for an Inflation Amendment which would have increased the cost of living $3,500,000,000 yearly to help 240,000 farmers employing ten or more hands. Approximately 8,760,000 smaller farmers and the rest of us would be compelled to suffer that burden according to the Republican Detroit Free Press. Is this not dastardly opposition to our country and our people?

How much must we endure? Why not have Patriotism instead of Prejudice? Will your ballot be cast in opposition to our nation and our people? Or, will you vote to win the war and the peace? A just and lasting peace? If so, vote for REDMOND M. BURR.

MURRAY D. VAN WAGONER
Governor

He Wiped Out the Deficit

For 20 years, Michigan's state government has had a deficit. It has grown fatter and more imposing with the passage of each year.

Two years ago, Governor Murray D. Wagoner pledged that if elected he would reduce the deficit by one half. The pledge was openly ridiculed by opposition spokesmen.

But Van Wagoner meant it. When he took office, he insisted that certain funds be earmarked for retirement of the deficit. He vetoes bills passed by the State Legislature calling for expenditure of millions of dollars. The Legislature promptly went on a three months sit down strike. It was forced back to its duties by the pressure of public opinion.

That deficit has been completely eliminated today, and the state actually has an $8,000,000 surplus.

Indians Again Grid Champions

BLISSFIELD, HERE TOMORROW, WILL ATTEMPT TO BREAK UNDEFEATED RECORD

As the result of winning the Lenawee Grid Championship, Coach Hart's Tecumseh Indians will meet the Adrian High School football team in an Armistice Day game at Island Park, Adrian, November 11 at 8 o'clock, it was announced today. The proceeds of the game will go to the USO.

The Tecumseh Indians won their second straight Lenawee County Athletic Association gridiron championship at Recreation Center, Friday night, by defeating Morenci 6 to 0. The Indians still have one more game to play with Blissfield, at the Recreation Center tomorrow night at 8:15, but it will have little bearing on the status of the Indians because a loss would make little difference in the standings. Blissfield is determined to spoil Tecumseh's unbeaten record in the county race, however, and the game should prove an interesting one from the spectator's viewpoint.

A very wet field and a wet ball kept the scoring to a minimum, and kept the Indian's vaunted passing attack under par, in the Morenci game.

For three quarters the two teams sloshed and slid around back and forth with the odds about even, with an indication of a tie result. However, a pass from Harvey Proctor to John Snyder from Morenci's 30 yard line was completed on the Morenci 9. In a series of three line plays, Proctor slashed off tackle for the touchdown. John Snyder attempted to score the extra point with a place kick but it was wide.

The fighting Morenci eleven came back strongly and shoved the Indians toward their own goal line. With Jack Van Wagner toting the ball every play the Bulldogs made a first down on the Tecumseh five yard line. The Indians' defense stiffened however, and the Indians took over on their own one yard line. Proctor kicked out of danger to the Tecumseh 40 yard line. Morenci again began a drive, and with the help of a 15 yard penalty on Tecumseh, was hammering at the goal line again as the game ended.

Tecumseh made 10 first downs to Morenci's 9. Tecumseh attempted 5 passes; two were completed and two were intercepted. Morenci attempted two passes but both were incomplete. Tecumseh was penalized a total of 35 yards; Morenci none.

Van Wagner was outstanding for the visitors, and Proctor and Cliff Jackson were outstanding in the Tecumseh backfield. In the line, Snyder, Jack Brown and Bill Sisson did more than their share of work.

ROSES IN NOVEMBER FROM ROGERS GARDEN

Lester Rogers, who is a laundryman by vocation and who has as his hobby rose gardening, picked beautiful white and red blooms from his garden on Sunday, November 1.

According to Mr. Rogers, November 1 is not late for the out-of-door variety of roses he raises, and he recalls that last year he picked a bouquet on Thanksgiving Day. However, this year, he says, because of severe frosts suffered in the winter of 1941-42, the late rose crop will be impossible.

State Swings To Republicans

MICHIGAN AND LENAWEE COUNTY ELECT G.O.P. CANDIDATES AT POLLS, TUES.

In a decided swing away from the Democrat party and the New Deal, voters, in Tuesday's off-year election, placed Michigan solidly in the Republican column, swept out Democrat governors in three other states, and cut heavily into Roosevelt majorities in both the House and Senate.

In Michigan, Democratic Governor Van Wagoner went down to defeat in favor of Republican Harry Kelly, and Senator Prentiss Brown, who had the Administration's blessing, lost to Judge Homer Ferguson of Detroit. In New York state, Thomas E. Dewey won over Roosevelt-endorsed John Bennett for the governorship, and similar victories for the Republicans were in order in California and Connecticut.

As the result of Tuesday's balloting, which for the most part was light, control of the House of Representatives swung in the balance, but the Democrats were confident that they would retain a working margin. The Senate will remain Democratic.

In Michigan, the entire Republican ticket headed by Mr. Kelley was elected to office and the heavy G.O.P. swing also carried to victory Judge Ferguson over the St. Ignace lawyer-senator, Prentiss Brown.

In the local congressional race, Congressman Earl C. Michener proved an easy winner over his Democratic opponent, R. M. Burr of Ann Arbor. Mr. Michener's majority amounted to a little more than 17,000.

In the state senate race, Elmer Porter, Blissfield, defeated his Democratic opponent, E. C. Heilman, Tecumseh, but by not such a large majority as was given to other candidates. Porter polled 16,911 votes to Mr. Heilman's 9,804.

Fred Rodeseiler, Republican state representative, defeated his opponent, Dr. Dryer, by about 6,000 majority.

In Lenawee county, not a single Democrat was elected to office. Elmer M. Bringman is the new sheriff, Robert King was re-elected county clerk, Harry Bradley, treasurer, Leonard Warner, register of deeds, Lenawee Hammond was re-elected prosecutor over Bernar Williamson.

The county polled 12,970 votes in the election, approximately one half the number cast in the 1940 presidential balloting. John R. Zeigler of Tecumseh and George W. Bean, Adrian, were re-elected as circuit court commissioners, and Lenawee voters gave their majority to Raymond Starr for election to the supreme court bench.

Tecumseh cast 996 votes in the election, a little more than half of its voting strength. The township remained solidly Republican, although it did split its vote for Mr. Heilman and Mr. Williamson, the latter a resident of Morenci and a former local boy. Tecumseh gave Mr. Heilman 436 votes to Mr. Porter's 449, and Mr. Williamson 354 votes to Mr. Hammond's 527.

Six From One Family Are In Armed Service

Mrs. Leon Withee and her sister Mrs. Clara Cameron have six nephews, all from one family, in the armed service. Five are in active duty, the sixth enlisted and waiting call.

The boys, sons of Mr. and Mrs. G. Gilbert of Hemlock are Arthur, 29, storekeeper first class in the navy for more than 13 years, and not heard from since last May; Corporal Albert, 23, a member of the army airforce for 14 months and overseas; Sgt. Ernest, army transport service in Hawaii for two years and a survivor of Pearl Harbor; Delbert, 20, a private stationed at Camp Wolters, Texas, since Oct. 1; Roy, 35, at Fort Custer since Oct. 17; and Gilbert who enlisted in the navy in September and is waiting call.

A seventh son, Earl, is in Arizona because of ill health and a daughter, at home thinks the Waac's and Waves are ideal, and that singing for the boys in army and navy canteens would be "swell." And so, there may be another Gilbert joining the ranks!

Albert who is with the AAF in England was employed at Tecumseh Products Company previous to his enlistment, and stayed with Mr. and Mrs. Withee.

BURIED IN BROOKSIDE

The body of Miss Rose Mary Cupples, a former Tecumseh resident, who died in Detroit October 26, was brought here Thursday for burial in Brookside cemetery.

Capt. Williamson Owes His Life To An Infected Tooth

Capt. Leon Williamson today owes his life to an infected wisdom tooth.

Capt. Williamson, flying a bomber in the Marine Air Corps, a few weeks ago wrote to his father here, L. P. Williamson, W. Chicago boulevard, telling him that he had successfully survived some 50 odd bombings on Midway Island, only to find himself in a base hospital in the Hawaiian Islands with an infected wisdom tooth. In true soldier fashion, the young captain did not comment on the air raids, but he did tell his dad that the tooth was coming along fine and that after a strep infection had been cared for he would be back again, fighting the Japs.

This week, Mr. Williamson, sr., again heard from the captain. He was still in the hospital and doctors were caring for his infection when his squadron was ordered to the Solomon Islands. Surgeons would not permit the young Tecumseh pilot to join the raid, because of his illness. His ship was turned over to another captain and the flight was started.

The officer flying Williamson's ship—the same ship he had used in all of the raids at Midway Island—paid with his life. The ship met up with enemy raiders and was shot down at sea. Capt. Williamson told his father. Both the pilot and the ship were lost.

Capt. Williamson is one of two of L. P. Williamson's sons who are in service. The other son, Richard, is "somewhere at sea" aboard one of the nation's largest battleships. Where he is, his father does not know and he is patiently awaiting a letter from him. He does know, however, that the two brothers met a few months ago in the Hawaiian Islands, and were able to visit for a few hours. Their meeting was by chance, neither of the boys knowing that the other was on the Island until they met in a hotel.

Soldier Comments on Blackout Ruling

Lieut. James Beardsley, who is stationed "somewhere in the Pacific," in a letter this week to E. C. Heilman, Civilian Defense director here, comments on an article which he read in The Herald, concerning the lighting of matches during a blackout.

In an article in the issue of the August 20th Herald, Mr. Heilman criticized some Tecumseh folk for striking matches during a practice blackout here. Lieut. Beardsley according to his letter, had just received the paper.

"You are quite right," Beardsley told Mr. Heilman. "Matches should not be lighted during a blackout. Where we are stationed, when weather conditions are right, you can see the flare of a lighted match for a distance of 250 miles."

The local man did not comment on the war further than to say that he has discovered that the Japs are good marksmen.

Rent Frozen In the County

FEDERAL RENT ADMINISTRATOR TO OPEN OFFICES IN ADRIAN NEXT WEEK

Residential rents in Lenawee county—and in three other counties, Monroe, in Michigan and Lucas and Wood in Ohio—have been frozen by the federal government, according to an announcement by J. T. Boland of Toledo, area administrator. According to Mr. Boland, all rents were frozen as of March 1, 1942 in the four-county district, and tenants are to pay no more rent than they were paying at the March 1 date, and landlords can not accept more rent than the amount fixed by that date.

A rent control office for Lenawee county will be set up in Adrian next Monday, Mr. Boland said, but the location has not been decided.

For tenants in the defense rental areas, one over-all guiding principle is set forth by the regulations:

Tenants after November 1, shall pay no more than the rent which the same accomodations were bringing on March 1, 1942. The only major exception to this comes when the accomodations have been substantially changed by a major capital improvement. Ordinary maintenance and repair are not considered major capital improvements.

Failure to comply with the registration of rental property, the beginning date of which will be announced soon, may subject the willful violators to a $5,000 fine, one year's imprsonment or both, provided under the Emergency Price Control Act."

"A great many questions will arise in the minds of both landlords and tenants," Mr Bolan says. "To both landlords and tenants we say: Do not come to the rent office for oral interpretations. If anyone has a question, he should write it out and mail it into the Adrian rent office. This office will answer the questions in writing then there will be no misunderstanding."

TO THE UNKNOWN SOLDIER

"And thus this man died, leaving his death for an example of a noble courage, and a memorial of virtue, not only unto young men, but unto all his nation." 2 Mac. VI 31.

Again on this Armistice Day, the highest dignitaries of the land will gather at a grave in Arlington Cemetery to pay honor to the unknown soldier who represents all who fell in the last World War—symbol of those who have fallen in the renewed struggle between tyranny and freedom.

No one knows who this unknown soldier is. He may have come from any part of the nation—from some teeming factory or from behind the plow. No one knows or cares who or what his ancestors were, whether he was among the humble or the favored of fortune, or by what path he sought to climb to the heights to sit humbly with his God. All that is known is that he gave his life for the United States of America.

What he was, is not of import. It is what he did and what he has passed on to us the living that is vital.

Heroes are an inspiration, not a creed—an altar from which to progress, not a grave by which to mourn. We truly honor our dead not by making their earthly resting place a spot of beauty and of peace, but by completing the task they set out to do. We dishonor them when we leave undone the work for which they gave their lives.

Unknown means not recognized. But the task that the Unknown Soldier left is recognized by all of us. He was an American—not rich, not poor, not Protestant, Catholic or Jew; not a German-American, a Russian-American, an Italian-American; not a "son of the American Revolution", not an immigrant—but just a citizen of the United States—an American who loved his country and its ideals of freedom and equality enough to offer his life that these ideals of justice and democracy might not perish.

It is for us the living to carry on where he left off—to rededicate ourselves to those ideals which carved this country from the wilderness, formed it into a confederation, welded it into a nation, and made it and its Constitution the hope and the aspiration of the oppressed multitudes of the Old World. Our pledge of the continuance of these ideals is the wreath of immortelles we lay on the grave of the Unknown Soldier this Armistice Day 1942. It is his right—and our duty!

Let Storm Sash or Insulation Guard Your Fuel Supply

Regardless of the kind of fuel you burn in your furnace or heating plant, you must guard it this year as never before—we are at war.

Our advice to every home owner is to guard his fuel supply this season with either storm sash or insulation—or both. Storm sash, even in insulated homes, are economical because they check heat loss.

Don't delay until zero temperature arrive. Ask us NOW about building storm sash for your home or furnishing the necessary insulation.

Gas Rationing Is on Its Way

MONEY PEOPLE BELIEVE PLAN WILL NOT WORK OUT IN THE MIDDLE WEST

Lansing, Nov. 5—Quick, an aspirin! Gasoline rationing will start in two weeks.

Sunday, Nov. 22, is the big day. If you drive an automobile, you must register it beginning Monday, Nov. 9. You'll be limited to five tires, numbers of which you must declare. A fine of $10,000 and imprisonment for 10 years are provided if you falsify your tire statement.

You will explain why you need your car and how much you drive it in a month. Then the sad news will follow.

It's just like that.

For most Americans, transportation rationing means four gallons of gasoline a week, or enough, according to OPA reckoning, to take you 2,800 miles a year. This is the "A" card, in effect.

If the local rationing board approves your plea for more mileage and more gasoline, you will get a "B" card which permits you to purchase additional gasoline in the rationing time period.

If you have more than five automobile tires, you must sell or give them to the government through the Defense Supplies Corporation which has $150,000,000 available to buy idle tires at ceiling prices. The Railway Express agency will collect the tires and transport them to a nearby warehouse.

After the tire has been inspected at the warehouse to determine its value, the government will mail you a check, or war bonds and stamps if you prefer. No deductions will be made for services performed by the Railway Express.

"Will this gasoline rationing work in the Middle West?" you ask. A lot of people don't believe it will, and they are not hesitant to say no.

In the East, where this type of rationing was first introduced, distances between homes and factory are comparatively small. Highway transportation is secondary to railroads, buses and street cars.

In one day you can drive through three or four states in New England.

And then slow down the driving speed to 35 miles an hour, and you get the next best thing to a headache itself. Detroit, for example, has been an automobile town in more ways than one. Thousands of workers drive to work daily.

"Share-the-ride" is being promoted as one feasible solution for defense workers, but even this scheme has its limitations.

Hundreds of Michigan resorts in northern Michigan and Upper Peninsula are accessible only by automobile. A "ghost" season is feared in 1943.

That the Middle-West is more dependent upon automobile transportation than is the East and consequently is going to require plenty of "education" before they accept it, is a possible deduction which could be made from appeal sent by Governor Murray D. Van Wagoner and Senator Prentiss Brown to Leon Henderson, the OPA czar at Washington.

Van Wagoner and Brown, democratic nominee for re-election, reflected the popular attitude in Michigan with respect to gasoline rationing when they urged Henderson to reconsider the stringent restrictions.

Obviously there was a political reason for such action, but it was an admission that the average Michigan voter doesn't like what is in store for him, and he is saying so.

Even President Roosevelt gave weight to this conclusion when he returned to Washington from his coast-to-coast tour and said that the nation's capital was out of step with the rest of us.

Dissatisfaction with the conduct of the war is rampant. Here are some examples:

1. Local selective service and rationing boards are confused. Orders sent from Washington and state headquarters are not clearly understood. Washington announces that such-and-such industries are "essential" to the war. Then local boards refuse to consider deferments; they inform petitioners that rules do not permit such action.

2. Fabulous wages are being paid to city workers in war industries on a 40-hour basis. Farmers cannot compete either in pay or in hours. Then the draft takes farm labor, while the government urges the farmer to grow more food.

3. Small business is being slowly strangled to death economically. The parallel freeze of wholesale and retail prices as of last March was the first blow. Certain retail operators have large inventories; others have few goods on hand. You can't stay in business without goods to sell.

4. Disruption of home due to drafting of married men and 18 and 19 years old. The December quota for Michigan cannot be filled without the calling of 5,000 to 10,000 married men.

The spirit of sacrifice is still strong, of course. People are patriotic. But this upsetting of normal lives can not be effected without upsetting of emotions. Like the soldiers at camp who "beef" about army life, civilians are only human.

5. High prices of staple commodities such as butter, eggs, and meat. We're right in the middle of inflation, and some of us don't know it!

6. The government is withholding information from the people. "Off the record" talks by government officials clinches this point. Their excuse: Military reasons.

Illustrations: Three American cruisers—the Quincy, Vicennes and Astoria—were sunk on August 9. The Japanese said the next day that they had sunk "two heavy cruisers of the Astoria class". On Aug. 19 Prime Minister Curtis announced the loss of the Australian cruiser Canberra sunk in the same engagement. The American navy department withheld news of our losses until sixty-days after the event of Aug. 9.

The aircraft carrier Yorktown was sunk on June 6. Three months afterwards the government revealed its loss to the public.

Inevitably this policy of withholding news of major disasters for months will injure American morale. It will lead us to discount announcements of success.

These are only a few of the reasons why the average American is disturbed at the headlong trend of our war economy. Right or wrong, he is inclined to blame what he calls "Washington bureaucracy".

That's why the next regimentation hurdle on Nov. 22 is not being enthusiastically heralded in Michigan by a democratic governor and a democratic United States senator. We'll probably do what we're told, but we still are not happy about it.

Let the Family Washtub Hold Your Air Raid Sand

For the duration, and until Victory, we suggest that you give the family washtub the job of holding the air raid sand at your home, and send your laundry work to us.

There are many reasons why you should let us do your laundry work. First, it takes a lot of drudgery out of your home. Second, it assures you of snow-white laundry, regardless of weather. Third, laundry-washed clothes wear longer, and, fourth, the expense is less than it is to do the work in your own home.

Next week, bring your laundry to us and be convinced.

Yes, the Smug, Comfortable Farmer Now Has Laugh on "City Cousin"

Lansing, Nov. 5—This is a true story in fable.

Once upon a time a city man, thinking about his country cousins, said to himself in smug self-satisfaction:

"My poor country relations! They live on a farm many miles from town. Roads are bad. They get to stores with difficulty. They eat mostly meat and potatoes, have few luxuries, enjoy little entertainment, have scant money to spend, are usually in debt—well, it's very sad. I am truly sorry for my country cousins."

That was before 1942, mister. Times have changed!

Don't pity the poor cousins today. There's a good reason, too.

Your country cousins by now, this eventual November of 1942, are probably feeling downright sorry for you!

In only a few days your automobile will be rationed for limited use of gasoline. And if you're the average American citizens, you'll be given the exciting privilege of burning up four gasoline every seven days. In a few more weeks, perhaps around Christmas, Uncle Sam will give you a fistful of ration coupons for just about every important commodity you will need. Meat, for example. And then the incidental matter of milk. That's going to be rationed too.

Your country cousins can have a milk-shake by merely going to the dairy barn. Eggs, butter, chickens, meat, fresh vegetables—yes, your farm relations probably will have all they need. Incidentally, the electric freezing chamber keeps meat and fruit and vegetables fresh all winter.

You have forgotten that the highway is now paved with concrete. The rural route carrier brings the newspaper and periodicals right to the front gate. The radio brings Toscanini right into the living room. "Molly and Fibber" are too.

Electricity has replaced the oil lamp. The old windmill doesn't clatter like it used to, because an electric motor runs the pump now.

And that isn't all, brother.

For the city slicker who likes to get out his bankbook and swell with pride, here's a stopper:

The Bureau of Agricultural Economics of the U. S. Department of Agriculture has just figured out that the cash farm income from markeitngs THIS YEAR of our Lord, 1942, will be about 16 billion dollars, an increase of approximarketings THIS YEAR of our nearly double the pre-war 1935-39 average.

Why, the peak during World War I was 14.6 billion dollars, back in 1919.

The 1942 farm income represents, according to the Bureau, a rise in prices of around 25 per cent over last year and a 12 per cent increase in sales.

But that isn't all, folks.

Government payments for soil conservation will be about the same this year as last. This will raise the total cash farm income to around 15.6 billion dollars compared with 11.8 billions in 1941 and the 1935-39 average of 8.5 billions.

What's the farmer doing with all this money?

A large portion of this 1942 cash is going into payment of debts, reducing mortgages, savings through war bonds along with purchases of semi-luxury lines which are still available. One of the most encouraging signs, say the experts, is the absence of a speculative spirit which prompted farmers in the last war to go heavily in debt for purchase of land and equipment and were caught in the vicious post-war price cycle.

Most farm authorities apparently agree that the farmer will come out of this present war with a smaller debt structure and a large backlog of liquid assets—those things like war bonds which can be converted quickly into cash—than ever before.

Because of high material prices, many farmers are postponing new farm construction until the war is over.

And here are some more encouraging trends:

Ownership of farms is increasing; tenancy is falling.

Rural retail sales have increased each month for 21 consecutive months. Instead of durables being in demand, farmers are turning to clothing, housewares, food specialties and minor luxuries.

The big unfavorable trend, of course, is the growing scarcity of labor. The selective service headquarters at Washington has recommended deferment for farm labor, and there is news of "freezing" labor on dairy and poultry farms. Farmers have been selling livestock, and even additional acreage, so that can handle their farms themselves.

That is the bearish part of this story. It is one that heralds a possible scarcity of food by 1943 or 1944 with rationing of more and more commodities.

With approximately one-third more income this year than last year and with food right in his own garden and poultry house or on the "hoof", the Michigan farmer is doing very well, thank you.

He represents the true American spirit of free enterprise. Getting the job done is more important to him than getting higher wages at shorter hours.

He is going to make a significant contribution to winning of the war.

Yes, the "poor" country cousin is feeling sorry for a lot of city folk these days. Pass the fresh eggs and bacon, and have a laugh on us.

NEW FIRESTONE PLAN PROLONGS TIRE LIFE

In line with the recommendation of the Baruch committee, it will be necessary for every American motorist to have his tires inspected every 60 days by an authorized agency as a measure to conserve our critically deficient supply of rubber. The Firestone Tire & Rubber Company through its nationwide dealers and stores organization has inaugurated a special tire inspection and extra mileage plan which provides tire protection that helps the car owner to utilize every available mile that his tires now possess.

The Firestone inspection and extra mileage plan incorporates a three point program which provides every essential service plus two new tire protection features developed especially to prolong tire life during the wartime emergency.

The first point in the program is the removal of tacks, glass and other objects from the tire tread and body. After a thorough nspection the tires are then rotated scientifically from wheel to wheel at regular mileage intervals, to insure even wear as the second step, the tread and sidewalls of each tire are thorough treated with an extra mileage preservative, sealing the cracks in the rubber and protecting the tire from the checking effect of heat, light, and other similar causes. To safeguard against possibility of injury from being run flat should a tire be punctured, the third step in the Firestone plan is the injection of puncture seal in each inner tube. This newly developed fluid automatically seals leaks and punctures caused by nails, tacks and small pieces of glass. Almost equally important is the fact that this fluid air-proofs the inside of the tube, preventing air leakage through the porous rubber of older tubes.

Tecumseh May Double $6400 League Quota

VILLAGE AND TOWNSHIP ALREADY HAS SUBSCRIBED $12,315; QUOTA WAS $6,400

Again, Tecumseh is "over the top."

And again, let it be said that Tecumseh has never shirked a duty.

This morning, with returns yet incomplete, Tecumseh village and township had subscribed $12,315 to the Lenawee County Patriotic League, nearly doubling the quota set up for this area by the League offices at Adrian. It is the hope of Wade L. Jones, local chairman, that a few more hundred dollars may be subscribed between now and tomorrow or Friday, making it possible for the village to reach a goal of $12,800, exactly double the $6,400 quota.

"I am very proud of the showing that has been made by the village and the township, and I want to say 'thank you' in behalf of the League," Mr. Jones said. "Tecumseh has never shirked a responsibility, and she certainly has done a grand job in putting us over the top in this League drive. I believe that we will lead the county in the per capita gifts, and I doubt very much whether any other community can boast of doubling its quota. It's support such as you get in Tecumseh that makes life worth living, that makes a fellow feel proud that he is a part of the community."

Mr. Jones said that there are still a few districts in the rural areas to be heard from, and a few block chairmen are yet to report in the village. Whether or not the $12,800 figure will be reached, Mr. Jones could not say definitely, but he was hopeful. County wide, the goal has been set at $70,000.

In Tecumseh, the largest gift came from the Tecumseh Products Company and its employees, the total from that source amounting to $7,571. The total industrial gift of Tecumseh amounted to $9,292.50, from the business district, $2,067, from clubs, $128.20, residential area, $360, and from the rural area, $160.

"We will continue the solicitation this week," Jones said, "in an effort to double our quota. I wish that everyone would display the League shield in their windows, that solicitors may know whether or not they have been contacted. We will make a final and detailed report of the solicitation next Thursday."

Armistice Anniversary Is Observed Quietly

The twenty-fourth anniversary of the signing of the Armistice, ending World War No. 1, was quietly observed in Tecumseh yesterday. There was no parade, but factory whistles sounded at 11 a.m., and there was the usual three-minute pause for silent prayer. Flags were displayed everywhere.

At the high school, the program was in charge of Louis Schneider of Underwood-Orr Post, American Legion, and the speaker was the Rev. E. J. Wymer of Brooklyn, department chaplain of the American Legion. There was a musical program by the band.

At the Rotary club meeting here Tuesday at Brees House, Mr. Schneider was the speaker and the program was in keeping with Armistice Day.

SCHOOL BOARD MEETS

The regular monthly meeting of the board of Education was held at the high school, Tuesday evening. There was little business before the trustees.

An appropriation was made to pay the expense of the school's annual Christmas party, and it was decided to continue competitive athletics in the school, at least during the basketball season. In many schools competitive athletics have been dropped for the duration of the war, but the board believed that inasmuch as most of Tecumseh's competition is within a few miles of the school, or with in the county, the cage season might continue without interruption.

Robt. Wilson To Get Annapolis Appointment

Robert Wilson, son of Mr. and Mrs. M. W. Wilson, has qualified for an appointment to the U. S. Naval Academy, Annapolis, according to information received today from Congressman Earl C. Michener at Washington. Robert is now a student at Albion college, having graduated from the Tecumseh high school last June. He took in qualifying examination for Annapolis last October 3 and Mr. Michener's letter reads in part:

"I am enclosing your examination papers herewith. Note that you made a rating of 65-50. This gives you a place on the eligible list for Annapolis and enables me to offer to you one of two permanent appointments for entrance to the Academy on July 1, 1943."

Fuel Coupons to be Delayed

RATION BOOKS TO BE ISSUED AT ADRIAN OFFICE, RATHER THAN IN SCHOOLS

Applications for fuel oil, under the federal rationing order, have for the most part been checked in the office of W. L. Berkhof, superintendent of schools here, and will be forwarded to the County Rationing Board at Adrian, where coupon books will be "tailored" to fit the needs of local consumers, it was announced today. Whether the coupons will be returned to the local school for distribution or mailed directly from Adrian, Mr. Berkhof was unable to say.

"We have about finished the task of checking the applications of local consumers," Mr. Berkhof said, "and because of the approaching gasoline rationing program, which also will be handled by the schools, the county board relieved us of the job of 'tailoring' the coupon books. However, we understand that as quickly as the books are ready at Adrian they will be placed in the hands of consumers."

The work of checking the hundreds of applications that poured into the local school office during the past two weeks has taken a good part of the superintendent's time, plus the time of several of the teachers. Every application had to be checked for accuracy of figures, and estimates of the winter's fuel need computed according to a table furnished by the government. Upon their arrival at Adrian they will be re-checked before ration coupons are issued.

Persons in need of fuel oil before rationing coupons are received from the government are able to obtain limited quantities from their oil companies as usual. However, it is necessary to sign an "I.O.U." at the time of delivery, in which the customer agrees to turn over to the oil company, as soon as they are received, the coupons covering fuel already delivered.

Mr. Berkhof said that it was impossible for him to say when the coupons would be available from Adrian. Ration boards are working at capacity and it may be several days before they arrive in Tecumseh.

Tells of Life in New Guinea

WENDALL LOUDEN, TECUMSEH BOY, SAYS YANKS ARE READY TO "KICK THE JAPS"

The ambition of the American boys in New Guinea is to kick the Japs off the island and then kick them around the Pacific until they are exterminated, according to Sgt. Wendell Louden, son of Mr. and Mrs. Forrest Louden of Tecumseh, who is now with the U. S. Expeditionary Forces on the tropical island.

Sgt. Louden, in one of the most interesting letters yet written to Tecumseh folk, tells something of the life in New Guinea, as well as in Australia, where he was before the transfer. His letter, as it passed the censor, follows:

October 14th, 1942
Somewhere in New Guinea

Dear Mother and Dad:

From the heading of this letter you can see that we have left the mainland of Australia, and are now resting on the island of New Guinea. The crossing of the span of water was uneventful and without incident. There wasn't much of anything to do while aboard ship, and just about all my time was taken up in playing cards and basking in the sunshine with our traveling on dangerous waters for quite a few days, you can just bet that every one of us breathed a big sigh of relief when we set foot on good old mother earth.

This time we've really come to a desolate spot, and are living in the wilderness. The civilian population has been evacuated, and there are no stores left in which to buy anything. Therefore, the only thing to do is to work during the day, and when the sun goes down, shoot the bull with the boys. This type of life is hard and boring but must necessarily be contented with if there is to a successful culmination of this war with an Allied victory.

The boys are trained razor sharp and are eager to tangle with the sneaky Japs. No doubt by the time you receive this letter you will have read in the newspapers about large Allied successes in this part of the world. I believe that the ambition of the boys is to kick the Jap off this island and then kick him all around the Pacific until he is exterminated.

At first we found living conditions very difficult to accustom ourselves to, but after a few days, we managed to do all right after twisting and turning on the hard ground for a couple of days and sharing our blankets with batches of ants. We learned from the Aussies how to build our beds off the ground & now we sleep very well. From looking at the map you can see that we are in the heart of the tropical zone and it is really hot here. I am told that the hottest months are from December thru February, but by the time that period arrives, we will have soaked up enough of the sunshine to have become acclimated. Most of the boys are almost the color of the natives already. Speaking of the natives, they are very friendly here and should prove a valuable asset in seeking out and fighting the Japs.

Guess I've written just about all I can think of that would pass the censor, needless to say that I miss everyone back home and I hope and pray that the time is not too far distant when I will be back there following the normal pattern of life again. Who knows but what this latest move is the first leg of our journey back to the good old U. S. A. If you don't hear from me for quite a while, you should know that conditions make it impossible for me to write; therefore, don't wait for answers to your letters before writing again since the main source of enjoyment to the soldier, at present, is receiving letters from home.

Well there it is. Write soon.

Love,
Wendell.

Hart's Indians Bow to Adrian

REDMEN HUMBLED AT ISLAND PARK LAST EVENING, LOSING GAME 27 TO 0

In a hard-fought battle, in which the Tecumseh high school Indians were out-weighed and out-classed, the Redmen came out on the small end of a 27 to 0 score at Island Park gridiron, Adrian, last evening, in a clash with Adrian high school. Proctor suffered a knee injury that is not expected to be serious.

Adrian took no chances against the championship Tecumseh team, even though the school is much larger and its team is far heavier than Tecumseh's. Adrian played its first-string men throughout the game, hoping, it seemed, to pile up a far greater lop-sided score than was finally registered. However, when one thinks of last week's Michigan-Harvard game at Ann Arbor, in which the score was 35 to 7 in favor of Michigan, the Indians' showing against the "out class" school was excellent.

Last evening's game, although billed for "county championship" had no bearing on league standings. Receipts were turned over to the USO.

The Tecumseh Indians won their fifth straight league game of the season last Friday evening when they defeated the Blissfield high school eleven at Recreation Center here by a score of 13 to 6. Although the Indians did not need this game to clinch their claim to the county championship, their winning did force the Sugar Boys into third position in the league and placed Clinton in second place for the honors.

Blissfield apparently had blood in its eye and was definitely gunning for the Hartmen in the game here Friday. As the result of Blissfield's score, Tecumseh lost its honor of not being scored upon during a single game this season, an honor that was enjoyed by Coach Hart's championship team a year ago.

The Tecumseh champions will be honored at a gridiron banquet, to be held at the high school gymnasium here on Friday evening, November 20, at which time trophies will be awarded. The dinner is being sponsored by the Athletic Mothers Club, and following the program there will be dancing. It is expected that Coach Sprankle of Albion College, will be the guest speaker.

In the game last Friday, Tecumseh won its first score in the second period on a sustained 50-yard march with Harvey Proctor and Cliff Jackson alternating at carrying the ball. Jackson converted the extra point on a line smash.

Early in the fourth period, Blissfield elected to try for a first down by running the ball on fourth down with two feet to go. Tecumseh held the line and the ball went over to the Indians. In five plays, Tecumseh had scored again with Jackson going over for the touchdown. Proctor attempted to smash for the extra point but was smothered.

Blissfield received the Indians' kickoff on their own 25 yard line and a series of running plays brought the Sugar Boys to Tecumseh's 35-yard stripe. From this point Brubaker hurled a long pass to Bradley in the end zone for a score. Brubaker attempted to smash the line for the extra point but he failed. Shortly afterward the game ended with the ball in possession of the Indians.

Tecumseh and Blissfield each made 12 first downs during the game and the Indians suffered 15 yards of penalty to Blissfield's 10. The referee was Ray Fisher, Ann Arbor, the umpire, Keith Williams, N. Adams.

At the half, the Lenawee County Athletic Association championship trophy was awarded to the Indians by the Rev. James Cameron Murdoch and was accepted by co-Captains Jack Brown and Harvey Proctor. They in turn presented the trophy to Coach Neville Hart.

The final league standings are:

	W	T
Tecumseh	5	0
Clinton	3	1
Blissfield	2	2
Hudson	2	2
Morenci	1	3
Manchester	0	5

Miss Frances Gillespie Bride of E. C. Rathbun

The wedding of Miss Frances S. Gillespie and E. Clark Rathbun, son of Mr. and Mrs. Fred A. Rathbun of Fowlerville, took place Saturday afternoon at 4 o'clock in the chapel of the Presbyterian church. Rev. James Cameron Murdoch read the marriage service before an altar of palms, white chrysanthemums and cathedral candles. The attendants were Miss Marjorie Morgan of Detroit and Dale Sweet of Howell and Miss Gillespie was given in marriage by her uncle John E. Murphy.

The bride wore a street length dress of mulberry crepe with matching accessories, a strand of pearls, the gift of the bridegroom and a shoulder bouquet of orchids. Miss Morgan wore green wool with gardenias.

Following the ceremony a reception was held with Mrs. Bert Oosterhout, sister of the bride, as hostess. Miss Jennie Gillespie and Mrs. F. A. Rathbun presided at the table attractively centered with white chrysanthemums and lighted white tapers. The cake was topped with a colonial bouquet. Ninety guests attended from Lansing, Fowlerville, Owosso, Detroit, Port Sanilac, Sandusky, Marine City, Adrian, Milan and Tecumseh.

The bride who is a daughter of the late Mr. and Mrs. Garland Gillespie, is a graduate of Tecumseh high school, Foote Memorial School of Nursing in Jackson, and Wayne University in Detroit, and now holds the position of public health nurse in Shiawasse county. Mr. Rathbun is a graduate of Fowlerville high school and is employed as auditor for the Cities Service Oil Company.

On their return from a short wedding trip they will make their home in Owosso.

Gas Rationing Here Nov. 18-20

"A" BOOKS WILL BE ISSUED IN TECUMSEH FOR PASSENGERS CARS, MOTORCYCLES

Unless there is another change in federal policy—and this was considered very unlikely—the rationing of gasoline for motor car consumption will be started on a nation-wide basis on Tuesday, December 1, and locally and throughout the county the registration for rationing coupons will be in the public schools on November 18, 19 and 20, it was said today.

In Tecumseh, the rationing board will be in session at the high school to receive registrations on November 18, 19 and 20, from 1 o'clock to 5 o'clock each afternoon and from 8 to 9 p.m., each of the three evenings, W. L. Berkhof, superintendent, said.

"We will not close our schools to handle the registration," Mr. Berkhof said, "because we feel that we can do the work along with our school work, inasmuch as a part of it will fall in the evening hours." He did not say who would assist in the tremendous task, but it is believed that all available teachers and several local residents will be asked to do the work.

Mr. Berkhof said that local residents should bear in mind that only "A" rationing cards, good for the customary four gallons per week, can be issued here. He also said that this board could issue books only to owners of passenger cars and motorcycles. Trucks, either farm or commercial, and all other commercial vehicles must get their rationing books at the county office in Adrian in the court house. Farmers and commercial truckers must first obtain a certificate of registration from the Office of Defense Transportation, 318 Boulvard building, Detroit, showing their gasoline allotment. This certificate must be turned over to the county board at Adrian for the rationing coupons.

Passenger car owners desiring "B" or "C" ration books must first obtain their "A" card from the school and at that time fill out a supplemental form (R-535) asking for additional gasoline. This application goes to the county office and is reviewed.

"There are approximately 17,800 motor vehicles in Lenawee county," Guy E. Nemire, secretary of the county rationing board, said yesterday. "If 10,000 of these owners ask for supplemental gasoline, you can readily see the job that confronts us. Each application must be reviewed individually and acted upon. There are three members of the board. It will take days, weeks and possibly a month before the job is finished. In the meantime, car owners seeking additional gasoline will have to use their "A" books.

Applications for "A" gasoline cards may be obtained at most any garage or gasoline station. This application calls for title and license number, the serial number of tires, (not more than five; if you have six you can't get a rationing card) and other pertinent facts. Registration certificates must be shown to the rationing board before the book is issued, and the number of the federal motor car stamp on the windshield of your car also must be furnished.

FORCED SPEED NEEDED NOW

The recent Washington announcement which said that it is now hoped that enough rubber can be provided to keep all civilian cars going, is extremely encouraging. For the first time, the people have been given something beside "official" rumors and conflicting statements. And for the first time, it looks as if the government is going to attempt to solve the rubber problem with speed and efficiency. In this connection, the work and the policies of Mr. Eastman, head of the Office of Defense Transportation, and Mr. Jeffers, who has charge of the rubber program, are particularly outstanding. These men are demonstrating conclusively that they want results and mean to get them.

Economists who have studied the situation carefully have long been convinced that the rubber problem is not insoluble. Very important progress has been made by the oil industry in developing usable synthetic rubbers, and it is an unfortunate fact that this phase of the program has been held back by political indecision. Other kinds of rubber, with special properties which make them valuable for various purposes, are being successfully produced from coal, grain alcohol and other materials. American inventive genius, in short, is doing a fine job in finding ways to offset the loss of natural rubber.

This country's cars must be kept going. America can't be compared to other nations, where the motor car was a luxury enjoyed only by the rich. We have literally built our social and industrial life on the automobile. If, because of lack of rubber, any substantial part of our 27,000,000 cars were taken out of circulation, the resulting slow-down would have a catastrophic effect on the war effort. The rubber program must go ahead—and go at forced speed.

THE WRITING ON THE WALL

The writing on the wall is everywhere now, for everyone to see—regimentation. Regimentation of jobs, of income, of living conditions, of time, thought, and action.

This is one of the demands of total war in seeking the greatest efficiency and production from available man and woman-power. How to so gear output that our standards of living at home will remain "American" and our armed forces will be supplied on time with all the unprecedented needs of global warfare, is the problem.

In theory, it is protection through equalization, "temporary" control of individual activity for the country's good in time of emergency.

While our people willingly accept "temporary" restrictions as a necessity of war, the thing to remember is that word "temporary." We must not drift into a mental attitude that will pave the way for permanent regimentation. That isn't the kind of people we are.

What we have, what we are fighting for, is our roots, growing deep into the soil of free enterprise and free thinking, and the privilege of minding our own business. That privilege is what we must go back to, after the war, if freedom as we have known it is to survive in America.

INSTALL STORM SASH

War, bombings, rationing, shortages,—all of these are new words in our American vocabulary, words that we seldom used during our lifetime, words that today send a shudder down our spine.

BUT WE ARE AT WAR! We must fight until victory, we must conserve needed and critical materials, we MUST take care of our fuel for fuel is a critical material.

And we know of no better way to conserve fuel than install storm doors and windows and to see to it that houses are properly insulated.

It's not too late to do this work and we suggest that you consult us at once for prices. You'll find that storm sash and insulation pay for themselves in from two to three winters.

Understanding Patriotism is Need of Today

School's Relationship to Problem Of Nation's Well Being Stressed by Berkhof

The vital relationship of the school and its work to the problem of the nation's well-being was stressed by W. L. Berkhof, superintendent, in an address to the teachers and the general assembly of students, recently.

Mr. Berkhof's remarks were as follows:

The vital relationship of the school and its work to the problem of national well-being is never more clearly evident than during periods of war. This fact is brought home to us forcibly when we realize that the influence of the school reaches into nearly every home in the community in a most personal manner and that the service of the school is, in effect, the life blood of our democratic heritage. The first of these factors makes the school the most convenient, and in many cases the most logical institution for the dissemination of information and for the promotion of organizations and activities related to the war effort, and, although these extra activities and duties place upon the school demands which are often disturbing and difficult to meet, they also present golden opportunities for the teaching of virtues and skills in a most practical manner. Thus no finer medium for the teaching of thrift can be found than the school war savings program, and no more concrete project can be imagined for the teaching of the principles of Areodynamics than the model plane construction program sponsored in the interest of our armed forces.

The real challenge for teachers arises, however, from the second factor, namely the close relationship of the school to our democratic mode of living. While our schools must of necessity teach and uphold the ways of democracy as the ideal for which we are fighting, they must do so in an atmosphere of much that is foreign to our usual pattern of living. The terms conscription, rationing, forced savings and many others seem to be in direct conflict with the democratic ideals which must be upheld and this places upon the schools the particular task of developing in our children an understanding patriotism which will accept the hardships and inconveniences of today in the interest of a better tomorrow. This calls for the very highest type of teaching and this obligation becomes even greater when we realize that our schools can by their very nature and because of their relationship to youth and its optimistic buoyancy, become the high point of morale in our communities.

Finally we must also realize that the subject matter in many of our courses has assumed a new significance in this hour of trial. Many of the youth who are at present enrolled in our schools may soon find their places in the armed forces of our nation and this places upon us the obligation of giving them the very best educational training of which we are capable. Other problems of national welfare such as physical fitness, health, wise use of economic goods, and emergency protective measures also find their way into the school and find at least their partial solution in the daily classroom activity. This phase of our work also, therefore, demands that we GIVE IT OUR BEST.

Note: The theme for the specific aim for the year has its origin in the central thought of the first display for the year. One of the general staff meetings will be devoted to a resume of our activities along these lines, and a special effort will be made to motivate the student body to a similar consecration to the ideal.

Speedy Distribution Of Nation's Food Is Essential To Victory

Toledo, Nov. 12—Efficient distribution of the nation's food supply is essential in order that our armed forces, our Allies and the home front will obtain the maximum benefits of American farmers' record 1942 production, R. R. Betz, vice president, of the Great Atlantic & Pacific Tea Company's Toledo unit declared today.

Announcing the local celebration of the company's 83rd anniversary, he said that the men who handle the nation's food must see that not a pound of this important weapon of war is wasted.

"This is in line with the policy traditional with A & P ever since George Huntington Hartford founded the company back in 1859," Betz added. "Our policy of shortening the distance between farm and family dinner table by eliminating unnecessary marketing steps helps conserve food by cutting out the many needless handlings which result in much waste and spoilage of food."

Emphasizing that this straight-line marketing system also shortens transportation time and releases vital railway and truck equipment for movement of other war materials, the store executive declared, "speed is a vital factor in winning the war and fast, efficient methods of food distribution are as important to war production on the home front as the most modern weapons of blitz warfare are to our men on battle-fronts."

Mr. Betz gave an anniversary salute to the more than 11,000 A & P employes now serving in the armed forces of the United States and Canada and pledged that "those of us still at home will continue to do all we can to back them up."

In addition to its role in the war effort, he said straight-line marketing also means greater returns to growers and less costs to consumers. He cited results achieved by A & P in cutting the cost of distributing fresh fruits and vegetables.

"During the four years from 1937 to 1941, A & P reduced its buying and retailing expenses in connection with fresh fruits and vegetables 29 per cent, damage and spoilage 13 per cent and warehouse and cartage expenses 17 per cent," he said. "The savings thus

SOMETHING'S MISSING

The guide was conducting a tourist party through the automobile plant. He stopped by the assembly line. "Do you know what would happen if that man over there missed a day at work? he asked the members of the party.

"No; what would happen?" spoke up one.

"Twenty-two hundred and sixty-one cars would go out of the factory without springs."

"Say mister," said an interested onlooker. "that fellow's been off a lot hasn't he?"

HAYING DIFFICULTY

Paul, Idaho.—Getting in the hay on the Suchan farm proved a rather difficult task for the family of George Suchan. The father had to go to the hospital for an appendicitis operation. As if that were not enough, George, Jr., 10 fell from a hayrack and broke his wrist. Sympathetic neighbors finished the job.

Among the Bible citations is this passage (Romans 8:14-, 16): "For as many as are led by the Spirit of God, they are the sons of God. The Spirit itself beareth witness with our spirit, that we are the children of God:"

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 336): "Immortal man was and is God's image or idea, even the infinite expression of infinite Mind, and immortal man is coexistent and coeternal with that Mind."

NINETY-THIRD YEAR—NUMBER EIGHT — TECUMSEH, MICHIGAN, THURSDAY, NOVEMBER 19, 1942 — FIVE CENTS PER COPY

Friday is Final Gas Ration Day

LONG LINE MOVING SLOWLY AT SCHOOL HERE; TASK TREMENDOUS FOR TEACHERS

Although it will not be necessary for you to carry your lunch, you should be prepared for a wait of at least 40 minutes when you go to the high school here today or tomorrow to obtain your federal gasoline rationing coupons, and register your automobile in accordance with the ruling of the Office of Price Administration.

Here are the things to remember:

1. Today and tomorrow are the last days you can register in Tecumseh, If you fail to register here, it may be two to three weeks before you will be able to register in Adrian.

2. The registration board does not have application blanks. You must obtain your blanks from a garage or filling station.

3. Make out your blank before you go to school. Be careful with your figures and follow instructions to the letter.

4. Be sure to secure the number of the federal excise stamp on the windshield of your car.

5. You must have your certificate of registration. (The slip of paper you get back when you buy your automobile license.)

6. You must furnish (on the blank) the serial numbers of the five tires you own. Get these before you go to the school.

7. The rationing board is registering applicants in the home economics room at the high school. This room is in the basement.

The registration locally is in charge of W. L. Berkhof, superintendent of schools, but he is being assisted by George Parsons and a number of teachers and public spirited citizens—about 12 in all. The registrars are doing their best to handle the applicants quickly and efficiently, but the job takes time. There are 17,800 registered cars in Lenawee county and the task that confronts the registration boards is tremendous.

The registration here started yesterday at 1 o'clock and continued until 5 o'clock in the afternoon. Last evening the board worked from 8 until 9 o'clock. A similar schedule is being followed today and tomorrow, but registrations will not be accepted during the morning hours.

The local board is empowered to issue only the "A" rationing coupons good for four gallons of gasoline weekly after the beginning of the rationing, now set for December 1. The local board cannot issue rationing coupons to any commercial users, or truck operators, and neither can it supply the supplemental rationing books "B" or "C" which grant extra mileage for the car owner. The board, however, does have application blanks for the supplemental rationing books and these are furnished to those who request them.

Persons desiring more gasoline than is granted under the "A" book must fill out a supplemental application and forward or take it to the Price Administration office in the court house at Adrian. There it will be "processed" and if the application meets with the law's requirements, additional gasoline will be granted.

Persons who desire assistance in filling out their supplemental applications are asked to visit the office of Wade L. Jones, in the old Lilly bank building. Mr. Jones will give this assistance on Monday, Tuesday and Wednesday of next week, between the hours of 1 and 5 p.m.

Registration of motorists throut the county was being accomplished yesterday, today and tomorrow in the several schools of Lenawee and the city of Adrian. Everywhere there were reports of waiting lines, motorists realizing that the rationing application date positively ends on Friday.

"We cannot accept registrations after Friday of this week," Mr. Berkhof said, "and we understand that it will be two or three weeks before the Adrian board will be free to accept them. Therefore, it is important that motorists register either today or tomorrow, if they want gasoline after the first of December."

NOTICE

Having received active duty orders, U. S. Army, Wednesday, October 28 will be my last day in my office. During my absence, however, my office will be open Saturday evenings, and each afternoon except Thursday. Any accounts not paid or arrangements made for therefore by December 1, 1942, will be put in collection.

This committee is made up of the chairman and the vice-chairman and the following: Mrs. John Larsen, southeast section leader; Carl Cedarquist, northeast section leader; Fay Whelan, southwest section leader; Paul Breitenwischer, northwest section leader; and Mrs. Lou Carlson, Brownville section.

This committee is expected to organize and prepare itself to aid in assisting Tecumseh housewives with their menus after the rationing of foodstuffs is started.

The cards may be purchased by the organization in large quantities for nine-and-one-half cents per box and are tax free, but if an individual purchases through a store the cost is much larger. The Legion buys five decks for the usual price of one.

Housing Needs To Be Studied

MAYOR NAMES COMMITTEE TO ACT AT REQUEST OF THE DEFENSE COUNCIL

At the request of the Michigan Council for Civilian Defense, Mayor J. Floyd Elliott yesterday named a committee of Tecumseh men to investigate and study the housing problem in Tecumseh.

The mayor's committee is headed by Ray W. Herrick, president of the Tecumseh Products company. Other members are R. H. Moore, Perry Satterthwaite, John R. Thompson and H. W. Truesdale.

While it has been known for more than a year that a distinct shortage in housing exists here, and every effort has been made to obtain priorities to enable building, it has thus far been impossible to carry on a house-building program.

The committee named by the mayor is at the request of the state council, the chairman of which, in a letter to the village, recognized the need for a building program here to care for war workers.

Tecumseh Boosts War Chest Gift

VILLAGE LEADS IN PER CAPITA CONTRIBUTION TO PATRIOTIC LEAGUE, BELIEF

Unless some other city or community greatly increases its gift to the Lenawee County Patriotic League, Tecumseh's contribution to the War Chest will be by far the largest per capita return in the county, Wade L. Jones, chairman in this township, declared today. Returns this morning showed that thus far Tecumseh has subscribed $13,459.95, more than four times the original quota, and double the "double quota" set up later in the drive. Originally, Tecumseh's quota was $3,200. It was later raised to $6,400.

"We may even hit the $14,000 mark," was Mr. Jones' comment, "I rather doubt that we will go quite that high, but I didn't think we'd hit $13,000. Tecumseh is responding nobly to this patriotic enterprise, and there are still several solicitors to be heard from. Also, there are a few more individual gifts to come in and some of these may be larger than we anticipate."

The largest single factor in putting over Tecumseh's drive for funds for the league was the contribution of the Tecumseh Products Company and its employees. Of the total amount, Products gifts amounted to more than $7,600, and total industrial gifts (gifts from other factories) boosted this amount to some $9,200.

The quota for the League county-wide amounts to $70,000 and it was expected that the City of Adrian would subscribe about $30,000 of this total. A complete report of the league receipts has not yet been announced, although the drive was expected to be brought to a close on November 11. The delayed report is due to a desire to far over-subscribe the original figure, and workers are carrying on to that end.

A PLEDGE OF CITIZENSHIP

Citizenship is not a commonplace to be taken for granted. It is a badge of honor—a prize for which to strive, to be earned day in and day out, not to be remembered only at election days. Many communities are realizing this and are expressing the solemnity of inauguration day by using the oath which was taken centuries ago by the young men of Athens when they became of age.

In this time of war, when like the Athenians of old, we are fighting against the savage barbarian to preserve a democratic way of life, this oath should not only be made by those about to take office but by every one of us. Let us repeat it together.

"We will never bring disgrace to our city by any act of dishonesty or cowardice, nor ever desert our suffering comrades in the ranks." That is, we will be honest and courageous in all our dealings with our fellow men, regardless of class, race, creed, or color. We will not shirk—we will work and fight and pray for the good of the whole nation and we will not allow prejudice or intolerance to deter us in any way from our task.

"We will fight for our ideals and sacred things of the city, both alone and with many." That is, while we fight the enemy without with all our force, we will keep alive the spirit of democracy and freedom for all, which is the guiding light of our republic. We will not compromise our ideals.

"We will revere and obey the city's laws and do our best to incite a like respect and reverence in those about us who are prone to annul them and set them at naught." That is, we will not only keep the laws of our community in the letter of the word, but in the spirit as well. We will keep our community free from subversive influences which attempt mental sabotage against our institutions and ideals, and we will teach to the younger generation reverence for the high principles which govern our Constitution and which guide us as a nation.

"We will strive unceasingly to quicken the public's sense of civic duty." That is, we, by taking our part in all activities for the preservation and protection of the community, will act as an example to others, encouraging them to join in work not for themselves alone, but for all our people.

"And thus, in all these ways, we will strive to transmit this city not less but greater, better and more beautiful than it was transmitted to us." Our duties as citizens are not only to ourselves and our neighbors, our community and our nation, but to those who follow. The only way we can pay our debt to those who bequeathed to us a free way of life is to pass on to subsequent generations a free nation, united in devotion to the cause of liberty, better and more beautiful of that unity. Thus it came to us.

Save 10%... to Save 100%

All over the nation, patriotic Americans are spending less and saving more—putting at least 10% of their incomes into War Bonds and Stamps. So our boys can have the planes and tanks and guns they need to fight and attack and WIN for us!

So the Nazis and Japs will wish they hadn't tried to enslave America, too—and won't ever try it again!

And it's going to take 10% in War Bonds to do it!

So, if you've been postponing buckling down, remember, it's "Everybody 10%" or "Nobody (except our Axis masters) having a cent."

SHOOT STRAIGHT WITH OUR BOYS

"GET 'EM WHILE THEY'RE HOT!"

The hot dog is typical of America in more ways than one.

A basket of hot dogs on the arm of an ambitious boy can grow into a lunch stand—or a string of restaurants.

That's the way America works. Highbrows call it "free enterprise." The freedom to use your own energy and ingenuity. Everybody benefits by it. It gave America the world's highest standard of living.

That's the way the electric companies grow, too. A few men with vision built the first lines. Other folks with faith invested their savings. Better service, at lower prices, created jobs—and carried the comforts of electricity to more and more people.

Today, the average American home gets *twice as much* electricity for its money as it did 10 to 15 years ago. Today, also, America has far more power for war production than any other nation in the world. . . . Those are the results of *practical American business management* under public regulation.

SENIOR CLASS TO PRESENT PLAY

"Two Minutes to Go", a rollicking and exciting football comedy, will be presented by the Senior Class of Tecumseh high school on December 9 and 10.

The cast selected for the play by a committee of faculty members is as follows: Coach Spike Reagan, Jack Osburn; Sandra Reagan, Mary Wright; Superintendent James Wilson, Donald Brazee; Mrs. Druggins, Mary Louise Stevenson; Terry Druggins, Karl Schneider; Mimi Hopper, Marjorie Colson; Jo Craig, Gay Larsen; Whiz Barton, Donald Winter; Russ Martin, Leland Kerby; Hippo Reynolds, George Murdoch; Rudy Bain, Bob Laidlaw; Beth Carney, Delee Perin; Hope Longworth, Kathleen Fewell; Helen Meeks, Jacquelyn Costigan; Assistant Tom Birchard, Malcolm Bagshaw; Luella Bickel, Gwendolyn Kring.

For three years Trenton high school football team has not lost a game, but the coach has been dismissed because the powers that be do not like his methods. To the new job comes Walter "Spike" Reagan with his young bride, Sandra.

Superintendent Wilson calls on the young couple and pledges his full support of an athletic program that will give all a chance rather than a chosen few. As might be expected, certain of the seniors on the team, especially Whiz Barton, Hippo Reynolds and Russ Martin, have the feeling that they are indispensable. They take the training rules far too lightly. They are also irked because Spike makes frequent substitutions in order to give the whole squad a chance to play. Eventually Trenton loses a game, and the whole town is in an uproar over it. Whiz and his friends threaten to quit the team. Spike holds firm against all the threats and criticism, and continues to build up a strong team of erstwhile second-stringers.

Of all the substitutes, Rudy Bain is the most conscientious and the most eager to make good. Not prominent socially, and being poor, he has developed an inferiority complex as he mingles with the more privileged students. Sandra aids him in English composition, and Spike tries to snap Rudy out of his self-consciousness. Terry Druggins a five-year student, is capable of much better work in school, and likewise capable of a better performance on the gridiron. But he is not a very good sport and spends his time faultfinding rather than in earnest endeavor. It is Spike's influence on these two unpromising students that figures high in dramatic values in the play and brings the plot to a successful climax.

2 Hi School Boys Killed In Accident

ROBERT GILLESPIE AND DONALD CLARK FATALLY INJURED IN TUESDAY CRASH

Two Tecumseh high school freshmen were fatally injured and two Adrian boys of school age are in Tecumseh hospital suffering from injuries received shortly after 1 o'clock yesterday afternoon when the car in which they were riding and a gravel truck collided at Harwood's Corners, two miles southwest of here.

The dead are:

Robert Gillespie, 14, son of Mr. and Mrs. Robert Gillespie, East Logan street. He died almost instantly.

Donald Clark, 15, son of Mr. and Mrs. Bernard Clark, N. Democrat street. He suffered a broken left leg and chest and internal injuries. He died in Tecumseh hospital about 9 o'clock last night.

Those injured are:

Roy Sharp, 14, son of Vernon Sharp, Adrian. He has a broken left leg and head injuries.

Robert Brooks, 15, Adrian. He suffered cuts and bruises and a broken left leg.

According to Deputy Sheriff George Isaacson and Coroner Ed Braun of Adrian, who investigated the accident, the passenger car, a sedan driven by young Gillespie, was travelling north and the gravel truck, driven by Donald Hathaway, of Cadmus, was going east. They collided at the intersection.

Gillespie was pinned behind the steering wheel of the car and died soon after he was removed. The three other boys were taken to Tecumseh hospital in an ambulance. Mr. Hathaway suffered cuts and bruises but was not seriously hurt. The car and truck were completely wrecked.

Coroner Braun said that he was continuing his investigation of the wreck but he indicated that it would not be necessary to hold an inquest.

The body of Gillespie was removed to the Belding Funeral Home, where funeral services will be held on Friday morning at 10 o'clock, the Rev. O. V. Robinson officiating. Burial will be in Mountain Home Cemetery, Kalamazoo.

He is survived by his parents and two sisters, Clara and Jacqueline.

Clark is survived by his parents and two brothers, George of Hollywood, Calif., and William of Jackson, and one sister, Joan, at home. Also his grandmothers, Mrs. Mabel Wilson of Tecumseh and Mrs. Florence Clark of Toledo. The father, Bernard, is now in California, having left here about a month ago.

Clark's body was removed to the Collins Funeral Home. Arrangements for the funeral have not been completed, awaiting the arrival of the father from California.

Red Cross Asks For Nurse Aides

ENROLLMENT IN LOCAL CLASS IS SLOW; NEED FOR WORKERS POINTED OUT

Mrs. G. A. Rathbun, chairman of the local Red Cross Nurse's Aide course, reports that the response for enrollment has been very slow. It was hoped to start the course next week and an enrollment of 25 is almost necessary.

The Red Cross Nurse's Aides, according to The Volunteer, a Red Cross magazine, have during their ward practice, a definite and useful place in the hospital wards of today. Because of the dire shortage of graduate registered nurses in civilian hospitals, the Red Cross Nurse's Aides have been na comfort to patients and of immeasurable value to ward nurses. They have mastered the art of making a hospital bed, bathing patients, feeding the helpless, and other techniques of bedside care; leaving the nurse free for actual administration of treatments.

The Army and Navy are calling for trained nurses at the rate of 3000 a month, so there is a crying need of more Red Cross Volunteer Nurse's Aides to help those nurses who remain to care for sick o rwounded civilians.

Anyone between 18 and 50 years of age and in good health, willing to take 80 hours training and work a minimum of 150 hours in a hospital, is eligible and should enroll at once.

Bee Keeper Speaks To The Rotary Club

John D. McColl, local bee farm owner and a student of the winged manufacturers of honey, was the interesting speaker at the regular noon-day luncheon meeting of the Tecumseh Rotary club, Tuesday, at Brees House. He was the guest of Lester Rogers.

Honey, Mr. McColl declared, is not a substitute for sugar but rather sugar is a substitute for honey. Honey was used for sweetening long before sugar was manufactured, and today it is recognized as one of the nature's best sweets. The average swarm of bees, he declared, will produce from 60 to 300 pounds of honey annually, but the life of a bee is seldom more than six months.

Mr. McColl's talk, one of the most interesting vocational speeches yet heard by the club, traced the life of the honey bee from its origin. He also told how the bee manufacturers the honey and the comb, and pointed out that the bee's wax is now much in demand in war industry.

"I started out with the bee game as a hobby and became so interested that I made it my vocation," he declared, "However, I have learned to know that bees do not know their keeper, and that bees can sting."

The annual pageant "Holy Night" given by the Tecumseh Baptist church, will be held this year on Sunday evening, December 13, with two presentations, one at 7 o'clock and the other at 8:15. Members of the Bapist congregation, from the oldest to the youngest, take part in the production, many taking the same parts every year. It was planned from the first and is directed by Mrs. R. S. Moore who also takes the part of Queen Esther.

Committees in charge of the various group this year are as follows: Shepherds and Josephs brothers, Mrs. Floyd Bryan, Mrs. Lillian Owen, Mrs. Fay Van Valkenburg, Mrs. Leon Van Valkenburg and Mrs. E. H. McConnell; Miriam girls, Mrs. R. W. Herrick, Mrs. N. C. McConnell and Mrs. Robert Gillespie; attendants to Wise Men, Mrs. Llewlen Sisson; Wise Men, Robert L. Some 933 motorists in Tecumseh, not including truckers and commercial operators, applied for and received the regulation "A" gasoline rationing books in the registration held at the school here last week Wednesday through Friday, W. L. Berkhof, superintendent, said today. Mr. Berkhof was in charge of the registration for the Office of Price Administration, County-wide, the OPA at Adrian estimated that more than 17,000 books were issued, and it is expected that about 60 per cent of that number will seek supplemental rationing.

"We believe that we served every motorist in Tecumseh who desired an "A" book," Mr. Berkhof said. "The registration was carried on smoothly, and I desire to thank those who assisted us with the work."

The "A" ration book entitles the motorist to four gallons of gasoline weekly, sufficient to permit 240 miles of car travel in four weeks. Motorists who believe that it will be impossible for them to carry on necessary business on the four-gallon allowance must obtain B or C ration books and for these supplemental applications must be filed with the OPA at Adrian. Assistance in this registration was being given here by W. L. Jones, at the village clerk's office, and he said this morning that more than 200 have asked for additional gasoline. Today is the last day for the registration for supplemental rationing, and Mr. Jones' office will be open until 8 o'clock this afternoon to receive applications.

Nation-wide gasoline rationing is scheduled to go into effect on December 1, although there is a bitter fight in Congress to stay the order for 60 to 90 days. Metropolitan Detroit also is opposing the rationing, but official Washington was declared that there will be no delay in the program, as announced by the OPA.

Those who assisted Mr. Berkhof in the registration at the school, are:

George Parsons, supervisor, and Mrs. Paul Keyser, Mrs. Lou Carlson, Mrs. Orville Farver, Mrs. Louis Schneider, Mrs. Robert H. Moore, Mrs. Albert Tonneberger, Mrs. Charles Howe, Mrs. Gertrude Schneider, Mrs. W. N. Winfield, Mrs. Lewis Lent, Mrs. C. M. A THANKSGIVING PRAYER

With humble and contrite hearts, we gather together this Thanksgiving Day, 1942, to give praise unto Thee, most bountiful Giver of gifts.

The shadows of war darken our lives. We are menaced by the enemy from without. From within we are hampered by our own self-will and personal ambitions. Our nearest and dearest are sent into danger all over the world. The even tenor of our ordered lives has been shattered.

Yet we give thanks to Thee, O God, and bless Thy name for Thy manifold mercies vouchsafed unto us.

We thank Thee for this land of ours, its fertility, its resources, its people who are still free to fight and work and strive for freedom for all the world.

We thank Thee that we are Americans; that the days of prosperity and peace have not sapped the spirit which is our heritage from those who came to this land seeking freedom to worship Thee according to their own consciences; that as Americans, regardless of class, creed or color, we can stand firm, shoulder to shoulder in the struggle for the rights of all mankind.

We thank Thee that we are a United States; that we can differ in details of theology, of economics, of politics and still be united in demanding for and in granting to all others the same freedom we claim for ourselves.

We thank Thee for the victories granted us, not "merely over our enemies on land, sea and in the air, but on that battling ground within ourselves to the day by day clash between the forces of prejudice and ill will and the forces of neighborliness and fair play.

We thank Thee for Thy purpose in our lives as peoples and as a nation; that we may in Thy good time establish more firmly the democracy whose command is Thine—"Love thy neighbor as thyself," and bring Thy kingdom to reign on earth from now until everlasting. Amen.

Non-Partisan News Letter

Speaking of reasons why we should be thankful:

All records in Michigan for holiday buying are likely to be broken during the next few weeks .There is more money in circulation, more employment, higher payrolls, and bigger family incomes than ever before.

In scores of industrial towns the factories are humming with plush war orders. Pay checks are being swollen by over-time.

The approach of more rationing together with growing shortages of merchandise, has precipitated a consumers' rush to get products while they are still available.

Opening of the "second front" in Africa and news of the oustanding achievements made by the U.S.-made tanks in Egypt were welcomed by managers of several Michigan war plants.

One plant has been manufacturing heavy tanks. Because of shortage of a few vital parts hundreds of the assembled machines have not been sent to seaboard ports for shipment to our fighting fronts.

It's hard to convince a worker that he should stay on the job and forego the pleasure of deer hunting or frequent absences, when the government apparently is in no hurry to get the machine when the worker is through with it.

Hoarding of surplus labor .by management, fearful of a disadvantage in the arms race, and over-absenteeism by labor are two of the most common complaints to be heard at Lansing these days.

Selective service officials are convinced that many war plants are overmanned with draft-age workers, that management is trying to hedge as much as possible against anticipated draft losses, that women can replace most men and do the job just as well.

On management's side you hear his compaint: Organized labor is limiting production, compelling workers to slow down, and is indifferent to frequent absences by workers. "We can't win the war on a 40-hour week", officials insist.

According to two British labor leaders who recently visited a number of American plants, the average American worker is not aware of the danger confronting the democracies.

Arthur Stace, editor, Ann Arbor News, makes this observation:

"While paying the highest tribute to the magnificent physical establishments connected with the job of building weapons, the two visitors observed that the average American war worker seemed to lack the sense of urgency that motivates British workers to all-out production.

"Still more recently, an American reporter in Britain contributed a somewhat similar observation. His account did, however, emphasize a slightly different aspect of the situation. It related that after having lived together under the pressure of bombs and under the threat of imminent attack, the British had acquired two valuable qualities: steadfast national solidarity and a willingness to sacrifice. In the face of perpetual danger, the nation has drawn closer together and individuals have lost a large part of their reluctance to do without things"

Wouldn't you like to buy a War Bond with an official validating stamp, "December 7, 1942"?

Frank N. Isbey, Frank Murphy's choice for manager of the Michigan State Fair who is chairman of the Michigan war savings committee, invites Michigan citizens "to remember Pearl Harbor" by buying an extra bond between Dec. 1 and 7.

A commemorating date of Dec. 7 will be stamped on each bond purchased during that period, if the purchaser requests it.

Repeal of war time for Michigan, the most western state to be within the eastern time zone, is a good bet for the 1943 state legislature.

Campaigning candidates found this pledge to be a vote-getting weapon in bidding for farmers' support.

The last legislature repealed the advanced war time, only to have the governor veto the bill.

Streamlining the state legislative job into two annual sessions, instead of the biennial seige at Lansing that usually goes well into May and June, is one of the objectives of Governor-elect Harry F. Kelly.

Other governors have had similar dreams—economy in government, for example—and it remains to be seen whether Kelly can deliver the goods.

It is his conviction that an annual budget would be more efficient. Hence the annual session proposal.

Within twelve weeks after enlistment, 300 Michigan volunteers in the U. S. Marines will be on their way to battle, presumably in the southern Pacific war zone.

This fact, together with the 167th anniversary of the founding of the Marine Corps, prompted a group of chain store executives in Detroit to arrange a Christmas party in San Diego for the Michigan lads.

Each youth will receive a box containing cakes, cookies, cigarettes, razors, belts, etc.

Cooperating companies are Atlantic & Pacific Tea Company, Sears Roebuck, Kroger Grocery & Bakery Company, S. S. Kresege, and Cunningham Drug stores.

Unrest Blamed For Dem Upset

BUT, IF HISTORY REPEATS ITSELF, KELLY MAY BE OUT IN TWO MORE YEARS

Lansing, Nov. 1. Unless Harry F. Kelly breaks another precedent in Michigan history, he can look forward to two years of public service as Governor and no more.

The Republican secretary of state, victor in the G.O.P. landslide of November 3, upset one historical habit of voters in not changing their governor during a war. Governors Austin Blair, Hazen Pingree and Albert E. Sleeper were all returned to office by a public which evidently cherished the old admonition against "swapping horses in mid-stream."

However, the custom didn't save the genial, capable Murray D. Van Wagoner, smiling "Pat" to thousands of his friends, from being buried beneath a 75,000 Kelly majority. The "war governor" will be retired in favor of an opposition candidate whose record in the World War was most distinguished, having been awarded the French Croix de Guerre for valor.

Another fact still remains: For seven successive elections, a majority of the voters of Michigan have switched allegiance. Every other year an opposition candidate has ousted the incumbent governor—seven times straight!

Between 1892 and 1912 the Wolverine state was tagged by politicians as "Safely" Republican.

Republican Governor Blair had put the state well into the Republican column during the Civil War. The memory of Lincoln became a rallying point in succeeding campaigns, and the state remained G.O.P. for twelve elections until the turn of the nineties. Edwin B. Winans, Democrat, won in 1890 by oly 11,500 plurality. The state then remained Republican until 1914 when Woodbridge N. Ferris defeated the field to win by a plurality of 35,000.

Michigan then returned to its Republican voting habit until the Roosevelt New Deal swept across the nation like a tidal-wave in 1932, and William A. Comstock, a conservative Democrat, became governor.

Since advent of the New Deal which hastened the development of social legislation at Washington such as unemployment compensation and old age pensions, the state has gone Republican for two years and then Democratic for the next two.

Wilber M. Brucker was the first victim of the Democratic upset in 1932. Every governor from that day on has held office for two years—and no more.

Here is the procession, just to refreshen your memory!

1930—Wilber M. Brucker, Republican.

1932—William A. Comstock, Democrat.

1934—Frank D. Fitzgerald, Republican.

1936—Frank Murphy, Democrat.

1938—Frank D. Fitzgerald, Republican.

1940—Murray D. Van Wagoner, Democrat.

1942—Harry F. Kelly, Republican.

Why have the voters switched favors so consistently, as the above record bears out?

From a state considered in the past to be Republican, Michigan has become fighting ground for both parties every other year with better than even chances of victory for the opposition.

These have been times of depression—ups and downs in employment. They have been years of labor unrest—strikes, sitdowns, organization ferment. Farm prices have been low.

Michigan, once an agricultural state, is now heavily industrial. Security through governmental action has been replacing security through individual initiative. More and more centralized control at Lansing and Washington has been the trend. More bureaus, more employees and higher payrolls have followed each administration, almost regardless of party, during these years of economic and social turmoil.

Why did the voters swing the pendulum once again in Michigan?

Your guess is just as good as ours. Last March we appraised the trend as follows:

"If the fall elections were to be held today, many Michigan officeholders would be buried in a landslide protest. Right or wrong, the man on the street is pretty mad today. He is mad about the way the war is going. He is mad about labor's insistence of double pay for Sunday work, while the government asks him to buy bonds cheerfully and to pay more taxes. He is mad about a 40-hour week, while his son serves in the army for $21 a month."

It was our observation eight months ago that "voters usually do the irrational thing when they are in a mood to kick someone in the pants—whether the fault lies at Washington or at home."

Again in early August we sized up public opinion as follows:

"They key to the 1942 primary and election, will be the war. If the war is going badly as it is today, watch out! If the tide turns, voters will be more cheerful, less in a mood to kick someone in the pants . . . Generally speaking, 1942 is already tagged an 'emotional year'."

We have an affectionate regard and respect for both Murray D. Van Wagoner and Harry F. Kelly.

But we still believe the vote in November was influenced chiefly by upset emotions of many Americans who don't like the way the war is going.

Looking for someone to kick in the pants, they found Governor Van Wagoner within ballot-box reach.

Will the voters again swing over to an opposition candidate in 1944? Based upon contemporary history, they will.

We offer one final observation. Harry F. Kelly upset one precedent in 1942. He may do it again in 1944.

Nelson Praises Newspaper For War Scrap Drive

SAYS LEADERSHIP IS ANSWER HE EXPECTED FROM AMERICAN PRESS

Lansing, Mich., "The prompt and enthusiastic action of the newspapers of Michigan in accepting leadership in the vital national salvage program is the kind of answer I expected in my challenge to the American Press."

This quotation is from a telegram received by the Michigan Press association from Donald Nelson, chairman, War Production Board.

It pertains to the newspapers' scrap metal drive which is getting under way in every county and community of Michigan and which will be climaxed by a final cleanup collection of scrap metal starting next Monday, Oct. 5, and continuing until Saturday, Oct. 17. All newspapers, daily and weekly, are participating in the patroitic campaign.

You may logically ask, "Why is it necessary for the United States to have another scrap drive? It looks to me as if Washington has fallen down on the job."

Well, do you remember those newspaper headlines of a few months ago?

Of course you do. They were pretty unpleasant days, losing one battle after another, abandoning one fortress after anoher, sutrrendering one island after another. Many of us gritted our teeth then and muttered, "Why don't THEY do something about it? Why don't THEY send enough men and materials to win the battles?"

Some of us were pretty indignant about it. We Americans are not in the habit of losing a war.

The battle of scrap is today's battle on the home front.

It is OUR responsibility—not Washington's, or MacArthur's, or even our sons' on foreign duty throughout the world.

What are the FACTS, as the newspapers know them to be

The Axis prepared for war. We did not.

Germany and Japan accumulated huge reserves of vitally needed metal years and years before 1939. We did not.

And now, with war upon us in both oceans, with fighting fronts almost everywhere, we are again facing the problem of "Too little, too late".

There's one important difference however. This time we don't have to mutter, "Why don't they do something about it?", because today it's up to US.

Michigan war plants, many of them at least, are not operating at capacity. Many workers are idle, because steel mills can't fill the orders. They can't fill the orders because of a shortage of scrap metal.

Uncle Sam has scraped the bottom of his scrap barrel.

The only remaining source of this needed metal for MORE TANKS, and MORE AIRPLANES, and MORE MUNITIONS of every kind is the metal which is in every urban home, on every farm, in industrial plants and office buildings and old mines and even little used railroad lines.

Thrifty home-owners and tenants appreciate the logic of filling the fuel bin in advance of winter. The filled bin is a reserve supply against winter demands.

When you turn over your scrap metal—either by donating it to some local charity or by selling it to the local junk dealer—you will make possible the building of reserve scrap "banks" against which Uncle Sam can draw during the coming winter.

These scrap piles, whether in slight on the town square or in the junk yard, will be visible evidence that Uncle Sam CAN get the scrap if and when and where it is needed. It is entirely possible that such scrap may be held in reserve for emergency use in Michigan war plants until next February or March or April. But, such metal can't do the job if it is in your basement, or hidden under snow on your farm, or forgotten about in an old industrial plant.

Many of you may be already tired of hearing and reading about the necessity of scrap metal. Listen to these words by Linwood I. Noyes, editor of the Ironwood Daily Globe, way up north in the "iron country":

"You haven't time to get tired. You haven't heard anything yet. When this drive is completed there will be another, and another and still another. For scrap, for rubber, for basic materials, for money, for manpower, for men, for women, for soldiers, sailors and marines.

"Is it worth it? Yes. Don't get discouraged. FIGHT!

"Let it not be said we had 'too little too late'."

Yes, you can eat a bunch of celery and fill your stomach to capacity, but the nourishment you would get from the celery would be very small.

That's why we have always stressed quality rather than quantity, in our advertisements. We know that you can buy a lot for a little—or a little for a lot.

When it comes to food, it's nourishment that counts. Keeping fit in these war days is part of our plan for victory.

To Serve . . . Conserve!

Patriotism!

It is a great deal more than waving a flag. It is a great deal more than saying, "I love my country!"

Patriotism is an expression of love of country—**IT IS FEELING PUT INTO PRACTICAL ACTION!**

For many of us, Patriotism begins at **HOME.** We can serve as air-raid wardens, as fire-wardens. We can act as watchdogs of vital industries. We can knit. We can buy War Stamps and Bonds. We can do hundreds of jobs necessary to the war effort.

We can serve—**AND WE CAN CONSERVE!** Our government has called upon us to turn in every bit of rubber and scrap we can possibly spare and to reduce our driving, so that there will be enough rubber to build the planes to bomb Tokio and Berlin—enough rubber and scrap to build the tanks to crush the enemy wherever we may find him . . . and enough rubber and scrap to win this war!

How can we do it? Here's a few suggestions.

We needn't wait for Salvage Drives! We can collect all our waste material and pile it up. Then—sell it to a junk dealer, give it to a charity, take it ourselves to the nearest collection point, or get in touch with our local Salvage Committee.

And . . . instead of rolling out the car and whizzing off to some neighboring town to shop, we can visit our home-town stores. We'll no doubt find that **THE GREENEST PASTURES** have always been right in our own backyard.

Don't be a buyer-by-tire. Use your feet and save your country! Serve . . . **BY CONSERVING!**

Snow and Cold Slows Traffic

TEMPERATURE DIPS TO SIX ABOVE ZERO AND WEATHERMAN SAYS "COLDER"

The coldest temverature of the winter was reported at 8 o'clock this morning when official thermometers here stood at four above zero, two degrees colder than yesterday.

With the mercury hovering around the zero mark, and with the weatherman forecasting colder hours ahead, Tecumseh and Lenawee county settled down last night and this morning to the task of becoming accustomed to the first real cold weather of the winter.

The season's lowest temperature was recorded yesterday morning when the mercury dipped to six degrees above zero. During the mid-morning hours the temperature climbed to about 12 degrees and then fell back to the low point of the morning.

The cold wave rode in on a rather stiff wind and the light snowfall of the afternoon and last evening at times resembled a blizzard. Traffic, already greatly reduced due to the rationing of gasoline, was cut still further, motorists restricting their driving to a minimum.

"But there's still plenty of cars in circulation," was the way one garageman put it. "I was busy all day yesterday starting cars that refused to run or had skidded into the ditch. The gas business is mighty poor, but the 'push-em business' is plenty good."

Some residents of Tecumseh apparently are worrying far more about the rationing of fuel oil than gasoline, as the result of the extreme cold and windy weather. Thermostats, heretofore set at 65 degrees, had to be moved up a trifle to permit more heat in homes because of the weather. Oil men reported an increase in the demand for fuel oil which still may be purchased until Decmeber 10 without rationing coupons. Customers, however, must sign an IOU for oil purchased now, and take coupons from their books when they get them—probably next week.

Hospital Auxiliary To Meet Tuesday Evening

Tecumseh Hospital Auxiliary will meet Tuesday evening, December 8, at the Red Cross rooms at the Ford Building. Mrs. L. W. Larsen will be hostess and members are to bring canned fruits, vegetables and jellies for the hospital. Mrs. L. A. Carlson will give a reading.

Further plans were made for the annual candle light service to be held December 20. Rehearsal will be held at the church Sunday afternoon at 3:30.

County War Rationing Board is Working 16 Hours a Day In an Effort to Speed up the Issuance of Gas Coupons

With thousands of supplemental gas rationing applications still to be processed, and with only a mere handful of "donated" labor to do the job, the Lenawee County Price and Rationing Board at Adrian entered its third day of work today, while some 17,000 motorists in Lenawee county prepared to "whittle down" their necessary driving still further, awaiting the issuance of "B" and "C" books, permitting them to replenish their gas tank.

"The driving public is very patient," Guy E. Nemire, secretary of the board said. "I believe they realize the tremendous job that confronts us, and also that we have a very limited force to do the work. We hope, by the end of this week, to have all applications for "C" books and for trucks completely processed, and the books issued. We then will turn to the "B" applications.

"I believe that about 60 per cent of the applicants for gas rationing coupons have made more than one application. They need gas not only for their cars, but for gasoline motors, for trucks, for fuel and for other purposes. In some instances, a singe person has made as many as four and five separate applications. All of these must be passed upon separately, and it takes time to do the work."

Yesterday, the board received about 150 applications for "A" books from persons who failed to register 10 days ago. These new applications slowed down the board's operation on other work. However, it is not believed that anyone in the county has suffered for the want of gasoline, because it is possible for every motorist to use coupons from his "A" book to carry on while he is awaiting the arrival of his "B" or "C" book.

"We are working our regular eight or 10 hours a day, and then we are coming back at night and working until midnight in an effort to speed up the issuance of books," Nemire said. "We intend to keep this up until we get caught up with the work."

Fuel oil coupon books have not yet been processed by the board but it is expected that these will be forth-coming by the early part of next week. To permit users to buy fuel oil until their books are ready, the date has been extended from December 1 to December 10, before coupons wil be required. Oil may now be bought by merely signing an "IOU" when it is delivered.

Persons who burn gasoline with an octane rating higher than 86 per cent, do not need a rationing book, it is explained. The high es other than in a car, and who do octane gas is used in some stoves and in pressure lamps and for other purposes. Persons using gasoline for motors, engines and for purposes not require the high octane gas, may obtain the necessary application blanks from Wade L. Jones, village clerk.

Locally, it was said that gasoline dealers have sold less than 100 gallons of gas since the rationing went into effect last Monday midnight. There are good reasons for this, however, because every station attendant declared that the "fill 'er up" order came from every Monday customer, and that gas tanks have not yet been sufficiently drained to require refilling.

Tuesday, one of Tecumseh's largest dealers declared that he did not pump a single galon of gasoline. Wednesday forenoon, he said, he pumped eight gallons. Gas stations closed early Tuesday evening.

Stores reported that the rationing had had but little effect on business. However, there were a few less cars parked in the downtown district Tuesday and Wednesday and police said that there was a decided let-down in "through" traffic.

Says Coal Best Friend of Man

ROTARY SPEAKER POINTS TO ITS MANY USES, OTHER THAN FURNISHING HEAT

Coal is man's best friend—it has been since its discovery in the 17th century in England, and it still is —according to Leo J. Lynn of Detroit, district coal agent of the Pennsylvania Railroad Company, who addressed the Rotary club here, following its noon-day luncheon at Brees House, Tuesday. He was the guest of P. C. Satterthwaite.

"The English discovered coal on the islands in the seventeenth century and because coal was discovered there arose the need for transportation. Then came the discovery of steam, the need for hydraulic pumps to free mines of water brought about another discovery, and we could go on endlessly listing the advantages man now enjoys because coal was discovered."

But aside from its use in heating and in manufacturing steam for power, Mr. Lynn pointed out that there is not a doctor's office or a hospital which that does not contain many drugs and medicines made from coal and its by-products. The new sulpha drugs, used to fight pneumonia and infections, come from coal as well as some forms of sedatives.

Clothing, too, is now manufactured from coal, including the fine nylon hosiery and the parachutes used in the war zone.

"And we believe that we have only scratched the surface of the coal business," the speaker said. "Science is finding new uses for coal almost daily, and I believe that when the war is won we will give even greater scientific discoveries to mankind."

"We sing 'God Bless America,'" the speaker concluded, "but I believe that is is time that we gave thanks to God for the blessings he already has bestowed upon America. It is the greatest land on earth, a land filled with natural resources which, when properly harnessed, can bring to us the greatest happiness and comfort the world has ever known."

New Rationing Book is Coming

WILL BE USED FOR MEATS AND OTHER COMMODITIES THAT WILL BE RESTRICTED

Take another hitch in your belt and be prepared—soon after the first of the year—to receive the Office of Price Administration's Rationing Book No. 2 which may permit you to buy meat for your table and other commodities you now consider to be a necessity.

The new ration book, which Washington says may appear soon after New Year's, will be used in connection with Book No. 1, now being used for sugar and coffee. It will contain some 192 coupons of different colors and denominations and with different lettering.

There are going to be red A coupons, blue B coupons, A-1 coupons and B-1 coupons, and so-on throughout the alphabet (except the letters I and O) and when meat rationing starts different coupons will be used for the purchase of meat, perhaps a blue one for hamburger, a red one for porterhouse, a green one for lamb chops—or maybe the other way around.

In any event, it's going to be necessary to budget your coupon books just like you now budget your money, for you'll be allowed only so much meat, possibly two and a half pounds per person per week, and it will be up to the bookholder to plan his menu. If mother wants pork-chops, daughter wants liver and father wants steak—well you figure it out.

And after you have figured out your coupons you'll still have to worry about the cash—because it takes cash as well as coupons to get the meat.

What other commodities will be rationed in the new book the OPA has not announced. It is quite certain, however, that meat rationing will start in January and Washington has hinted that other rationing will come as the new year becomes older.

FREEDOM AND FREE PRESS

In a recent address in New York City, Dean Carl W. Ackerman of Columbia School of Journalism, pointed out the dangers in restricting freedom of the press as is now being attempted in suit filed by the Department of Justice against the Associated Press and 1,275 daily newspapers.

"If those who are determined to freeze the press, succeed in achieving their objective, we may have freedom of speech, but be deprived of freedom to speak, because the facilities and instrumentalities of communication will be frozen for the duration and only those governmental officials and agencies beyond censorship control will be able to use them.

"Under the cloak of war emergency, the American way of life is being profoundly changed by law, by directives, by executive orders, by judicial decisions, by consent decrees and by accomplished facts which the people are told about after the events."

Dean Ackerman pointed out that insofar as censorship of war activity was necessary to the success of war plans, no one has a right to object and no journalist would purposely give aid or comfort to an enemy, but he said the present attack on the press "has no justification whatsoever by the necessities of war. The object of that suit is not to preserve the freedom of the press but to freeze the press into a new mold, not during the war but in perpetuity."

And in that last sentence Dean Ackerman points out a growing danger to freedom in the United States—freedom of the individual, freedom of industry and freedom of economic progress. The loyalty of our people and their willingness to give their sons, their daughters and their worldly possessions to once and for all stamp out the threat of foreign dictatorship in America, must not be used as a screen behind which political agencies can freeze the nation into a new mold of restricted rights after the war.

NOW CAR OWNERS CAN BUY
THE NEW
Firestone
WAR TIRE

YES—It's true! If your present tires cannot be recapped, you are eligible to apply for a certificate to buy the new Firestone War Tire no matter whether you hold an "A", "B" or "C" gasoline ration book.

The new Firestone War Tire is now on sale at all Firestone Dealers and Firestone Stores. Its construction has been tested and proved by more than two years of service. Naturally, you'd expect Firestone to build the best War Tire that can be built, because Firestone has always been a pioneer in developing new processes and creating new products made from rubber. And with its unequalled background of experience in building tires that successfully withstand the most gruelling tests of durability and safety, it is not surprising that Firestone is building a War Tire with such exclusive features as:

Safti-Lock, Gum-Dipped Cord Body — same construction that has made Firestone Tires so strong, so safe, so durable on the road as well as on the Speedway. The body of the new Firestone War Tire is built to outwear several treads and can be recapped for thousands of miles of extra service.

Firestone Non-Skid Tread—famous for performance and protection against skidding.

Vitamic Rubber—made by adding a new wear-resisting rubber vitamin, called "Vitalin."

If your present tires can be recapped—be sure to have them recapped by the Firestone Factory Controlled Method. Firestone has the largest system of recapping shops in America, strategically located to give you better service. This nation-wide system is strictly supervised and uniform in workmanship. For longer mileage, bring your tires to us for recapping.

COME IN AND SEE IT! The new Firestone War Tire is now ready for the car owners of America. Come in and see it. We will be glad to help you make out an application for a tire rationing certificate.

PROTECT YOUR TIRE MILEAGE with Firestone LIFE PROTECTORS

For longer mileage and greater safety, equip every tire with a Firestone Life Protector. This amazing double-chambered tube keeps your tire inflated in event of a puncture or blowout, so that you can drive it without cutting or shaking the precious tire. Any certificate for a new tire entitles you to buy a Life Protector.

Nimitz Praises Hero of Midway

NAVY CROSS, WON BY CAPT. WILLIAMSON, SENT TO FAMILY IN TECUMSEH

Admiral C. W. Nimitz who, last week, decorated Capt. Leon Williamson of Tecumseh with the Navy Cross in recognition of his heroism in the Battle of Midway, praised the young Marine officer in the citation which was read at the presentation services in the Hawaiian Islands.

The Cross which the captain won and the citation handed him by the Admiral are now in the hands of Capt. Williamson's father, Leon P. Williamson of W. Chicago Blvd. They were sent to him by his son, and arrived here last Sunday. The heavy Cross, made of bronze, weighs several ounces.

The citation by Admiral Nimitz reads as follows:

In the name of the President of the United States,, the Commander in Chief, United States Pacific Fleet, takes pleasure in presenting the Navy Cross to Capt. Leon M. Williamson, United States Marine Corps Reserve, for service as set forth as follows:

"For extraordinary heroism in the line of his profession as a pilot of Marine Scout-Bombing Squadron two forty-one, during the operations of the U. S. Naval and Marine forces on Midway Islands, against the invading Japanese fleet on June 4 and 5, 1942. In the first attack on an enemy aircraft carrier, and in the face of withering fire from enemy fighters and anti-aircraft batteries, he pressed home his attack to a release altitude of 400 feet. On the night of June 4, 1942, after less than four hours of sleep, he participated in an attack through heavy anti-aircraft fire on an enemy battleship in which it was damaged seriously. His courage and devotion to duty were in keeping with the highest traditions of the Naval service."

C. W. NIMITZ,
Admiral, U.S. Navy.

Adult Reflects Early Training

TOO MANY PLAY BRIDGE INSTEAD OF BALL WITH THEIR CHILDREN, U. S. AGENT SAYS

Too many people spend too much time playing bridge with their children, was the observation of Ira Brought, agent in charge of the U. S. Secret Service offices in Toledo, when he addressed the Tecumseh Rotary club on Tuesday, following its noon-day luncheon at Brees House. Mr. Brought has been with the Service for some 20 years, and has had a wide and varied experience.

The average man who spends years at crime detection becomes either case-hardened or mellow, the speaker declared. He said that he hoped that he had mellowed. He declared that early child training is definitely reflected in the adult, and he cited investigations he had made to prove his contention. He told many interesting facts concerning his department, which deals chiefly with the protection of the president, his family and visiting royalty, and offense against the U. S. Treasury.

The fellow who accepts counterfeit money is "out" the amount unless he discovers the fraud at the time of the transaction, the agent declared. There is little need for the acceptance of fraudulent currency, Mr. Brought declared, if people will watch their change.

"On real money, the likeness of the picture, be it Lincoln, Washington or some other president, is alive. You can count the hairs in his head, the eyes are living. This is because an expert engraver—there are some 30 of them in the country—spent months making the engraving. Counterfeit money is dead, the image does not live, the eyes are dull. Watch this carefully, and you'll not need to worry about the currency in your pocket." he said.

Mr. Brought was the guest of John Zeigler, local attorney. He is Mr. Zeigler's cousin.

Plans are being made to organize clubs in the various districts. The National Navy mother is to speak over the radio Friday evening and will explain the aims of the club.

The groups already organized are busy making quilts, robes and other necessary hospital equipment for convalescent marines, also layettes for wives of navy men who are cared for in the Marine hospitals. Materials for the layettes are furnished from National funds.

PAST MATTRONS CLUB ELECTS OFFICERS

The Past Matrons Club of Tecumseh chapter, Order of the Eastern Star, met Friday evening for 6:30 dinner at the Brees House on South Evans street. Grange Asks Return To Central Time

Lenawee County Pomona Grange at its regular meeting held Thursday at Hudson Center, adopted a resolution requesting the state legislature to pass an act at the January session, returning Michigan to Central Standard Time. Michigan was moved from the Cenral zone to the Eastern zone several years ago, and when war time was adopted set the clocks two hours ahead of the original Central Standard time. The farmers find this a detriment in their work and along with the increasing shortage of labor, threatens to curtail production of food.

Rest Rooms May Be Closed Here

COUNCIL DISGUSTED WITH ACTIONS OF PUBLIC; WARNING IS ISSUED

Unless the public's respect for the rest rooms in the village council building changes materially, the rooms will be closed permanently, the village council warned at its session on Monday evening, after listening to a report from Rupert Arnold, custodian of the building. Rest rooms for women have been maintained in the building for many years.

The condition of the rest rooms is deplorable, it was said after the council meeting, and every effort has been used to change the public's attitude through the use of signs, etc.

"I've seen hog pens that were much cleaner than I have found the rooms some nights at 10 or 11 o'clock," was Mr. Arnold's comment. "I just can't understand the attitude of the women who leave the rooms in the condition I have found them, and it is impossible for us to maintain them in a proper manner for the use of the respecting public."

Mr. Arnold said that signs had been placed in the rooms, asking that the women refrain from writing on the walls. Instead of respecting the signs, he said, they are torn down and vulgar phrases are written in lipstick in their place.

"We are now warning the public officially that the attitude toward the rest rooms must change or they will be closed," Wade L. Jones, vilage cerk, said. "We are through issuing warnings, this will be the last one to come from the council."

The council voted to increase the salary of the fire truck driver $10 a month, and a similar increase was granted to the traffic officer. Miss Emily Todd, employed in the clerk's office, and A. Bagshaw, waterworks engineer, each were granted one week's pay for vacation time, which they did not receive.

Current bills were audited and ordered paid and the council adjourned.

However, Clinton is not going to find Tecumseh an easy team if last Friday's score at Dundee is to be considered. It was a week ago that Tecumseh defeated Dundee by a score of 28 to 18.

Kelly Favors Rigid Economy

GOVERNOR-ELECT HOPES TO EXPEDITE LEGISLATIVE SESSION; SEEKS ANNUAL BUDGET

Lansing, Dec. 10—War or no war, the prerogatives of Michigan state legislators are sanctified by time-honored traditions and are not to be lightly put aside even in an emergency—or are they?

The governor-elect, Harry F. Kelly, has disclosed that efforts will be made to expedite the 1943 legislative session. State revenues are declining, while costs are mounting. Hence, the Kelly program for an annual state budget instead of the customary biennial budget.

Why? Two reasons: The war and a resultant need for economy.

However, it involves the breaking of tradition. A lengthy legislative session in 1943 for the state's biennium would be replaced by short sessions in 1943 and 1944. That's where the hitch comes in.

Lengthy legislative sessions have become the rule since 1933 when the New Deal arrived with a bagful of reforms.

Farmer members of the legislature counted on adjournment by June so they could go home for summer work.

The farm labor shortage in 1943 will be acute. Rural legislators will be needed in their fields in the spring. This war situation should favor the Kelly plan, which calls for a radical change in habits legislators.

Ohio's Governor Brickner has announced that the Buckeye legislature will be limited, by gentleman's agreement, to matters pertaining to the war and the state budget.

Law-makers will not convene at Columbus to engage in the traditional log-rolling practice of introducing bills, which they know will be killed in committee, holding hearings "for the record", and otherwise spending a lot of time and money just to appease pressure blocs, large and small, in the district back home and thus fulfill campaign pledges.

At least, so says the Ohio governor who was re-elected for his third successive term last month and who has been mentioned prominently for the 1944's Republican presidential nomination.

At a conference of Republican senators, held recently in Kalamazoo, a number of ideas were suggested for speeding up Michigan's war-time session.

One proposal is to eliminate the printing of bills and to substitute for them the use of "short title". This is an abbreviated summary

BLUNT TRUTH

Agriculture is one of our most essential industries, but it remains the orphan of the war effort, notwithstanding the political uproar that has surrounded its problems.

Manpower is the most critical of these problems, plus a lack of faith by the dirt farmers in the ability of the Washington swivel-chair farmers.

The Dairymen's League Cooperative Association of New York recently published some figures relative to thousands of producers going out of business, that make grave reading for the consumer. The blunt truth is that our farmers either will be given the opportunity to produce, or we will starve. And if we wait much longer, we will suffer severely because it takes years to replace a good milk cow that has been slaughtered for beef.

SHARE THE RIDE

No one really knows how far-reaching will be the effects of stringent nation-wide gasoline rationing.Its resulting problems will be particularly acute amidst the vast distances of the mid-western United States. Thousands of war workers and farmers live many miles from production centers. Plans are under consideration for sharing of rides. Compulsion should be avoided wherever possible. American citizens, by nature and traditions, simply don't like it.

One oil company of California recently ran large advertisements in the papers, which promise to help immeasurably in this transportation problem. They urge workers to go to the nearest station and put their names on share-the-ride registers where every effort is being made to make it possible for car owners and workers to coordinate routes and times of departure.

Industry in every field of endeavor is striving to aid the overall war effort. It knows that a problem that is not solved voluntarily, must be solved by government authority. If the oil industry can help solve the auto transportation problem on a voluntary basis, all of us will owe it a debt of gratitude, because it will have helped avert official restrictions of individual action and movement, which are dear to the American citizen. We should cooperate to the limit.

A DANGEROUS ASSUMPTION

Too many people assume that an all-out war has to be fought by an all-out dictator government. This is not true. And it could never be true because modern war requires gigantic production and and government are not producers. At best, they can force the citizen to produce under compulsion, after the citizen has failed to do so for one reason or another.

America is outproducing Europe's slaves because free men are doing the job. If they are allowed to finish the war as such, there is not the slightest doubt as to the outcome. Victory will be ours. Our industries are rolling at an unheard-of pace. But they could do even more if bureaucrats and the people would once and for all realize who must keep mines and factories going full blast. Let government place the orders under proper supervision—American industry will do the rest.

Our armament and plane makers, our utilities, our railroads have proved they can accomplish miracles. The oil industry has been ready for months to begin production of synthetic rubber, awaiting only the "go" signal from officialism. Our metal and timber resources are being utilized to the fullest by the ingenuity of private management, and the coal industryt has provided the nation with the biggest stock pile of fuel in history.

All of these things have been and are being done by private citizens. They, and not the bureaucrats, should get the credit.

of the measure in a dozen or so words.

The bill would be announced by the clerk for first and second reading by reciting the short title and would be referred to committee. It would not be printed officially until the committee reported out the bill, whereupon it would be recorded in the house or senate journal.

Committees have a habit, now and then, of releasing bills most unexpectedly. It is conceivable that the legislature might unintentionaly invoke public wrath by acting on a measure without having adequate notice to interested parties. Legislative language also can hide nullifying "jokers".

One thing is fairly certain for the 1943 session. Legislative results should be conservative.

The Republican landslide in November is hailed as a rebuke to the national administration. And then the field of legisative action has been limited by the war. Washington has already regimented our daily lives; labor relations have been jelled for the duration; wages and prices frozen.

The day of experimentation has been superseded by war's rigorous demands.

Lobbyists forecast a minimum of "scare" legislation, some of which was always intended to improve the bank accounts of the sponsors more than the welfare of the "peepul".

We hear biennial talk among partisan stalwarts about the "state highway department machine." Some Republicans would like to abolish the job of G. Donald Kennedy, state highway commissioner. This eventuality is not expected to happen in the Republican-dominated legislature, it counsels of party leaders prevail.

The constitutionality of such circumvention is questioned by some lawyers.

Senator Elmer R. Porter, Blissfield, has a legal solution. He would create a state highway commission effective July 1, 1945 when the term of Kennedy will expire.

The commission would be appointed by the next governor. It would appoint a full-time director. This, so Senator Porter believes, would eliminate "politics" from the highway department, a bone of contention among Republican critics.

Because of the temper of the public, some legislators are shying away from "C" gasoline rationing cards.

OPA regulations permit "government officials" to use gasoline in excess of "A" and "B" allowances which ordinary folks receive.

It is interesting to note that some law-makers announce they will travel by bus or train and thus will shun "special favors". What will the folks back home say They're taking no chances!

Uncle Sam isn't going to requisition the University of Michigan and Michigan State College, and close their doors to other students. These institutions are apt to become officer training centers for men in the Army, Navy, or Air Corps. The men will be under military discipline and pay. Their military training wil be subordinated to academic work. Courses would last from nine months to more than two years.

Reason: Preparedness for a long war.

The fate of liberal arts, and hence, small colleges, is uncertain. Military leaders feel that a liberal arts education is not reevant to combat training and hence is a "luxury."

Definite announcement is expected soon from Washington.

CONSOLATION

A friend met a cheerful Irishman who had plainly suffered hard knocks.

"Well Pat, how are you getting on now?" he inquired.

"Oh, O'im still hard up, but Oi've a fine job in Honolulu, and t'ere paid. Oi sail tomorrow."

"Sure, man, you'll never be able to work there. The temperature is 100 in the shade."

Pat had cheerfully endured too much to be discouraged.

"Well," he replied, hopefully, "O'll not be workin' in the shade all th' toime."

Ice Fishermen Will Lack City Competition

Lansing, Dec. 10—Local ice fishermen will get almost no competition from city folk this season, as few dependent upon auto travel for this coldest of winter sports will have pleasure driving coupons to spare for it. Good ice for the winter fishing season, which begins when the cover on the lakes will support fishermen, began to form just as gasoline rationing started.

Anglers living within walking distance of ice-fishing waters have no new rules of the game to learn this season, according to state conservation officers. Those fishing for bluegills may fish only in daytime, from 7 a.m. to 7 p.m. Eastern War Time, and must observe a creel limit of 15. All anglers are limited to two lines, baited with a maximum of four hooks and kept under immediate control. After January 1, new 1943 fishing licenses will be needed.

Announcing Interest Reduction on Savings

The United States, in order to finance this war at the least possible cost to the American people, is borrowing money at lower interest rates than ever before. These low interest rates created by the government lead the way for interest rates on all high-grade securities. States, cities, and corporations are now able to borrow at comparable rates, therefore, the gross amount of interest that a bank collects today on its investments is much less than in years past.

Banks, like individuals and all business, face increased taxes and expenses which must be provided for, because they must operate with a margin of safety. Naturally interest which we pay to our savings depositors must be within the margin of safety. That is why conservatively operated banks everywhere find it necessary to pay lower rates of interest on savings accounts than heretofore.

This bank has announced that commencing December 1, 1942, it will pay interest at the rate of 1 per cent per annum on savings accounts and time deposits on amounts $10 and over. When future developments permit us to pay a higher rate of interest on savings accounts, you may be assured that the rate will be increased.

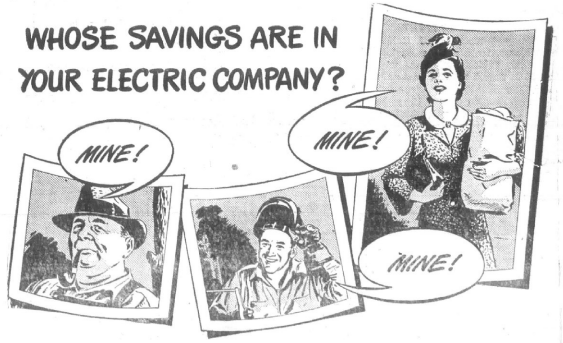
WHOSE SAVINGS ARE IN YOUR ELECTRIC COMPANY?



LOOK at the stockholder list at the right. It's a cross-section of America. Your local electric company could show a similar list—with some of your neighbors on it.

Besides these thousands of direct investors, there are millions more whose interest is indirect but no less real. Banks and insurance companies put much of their money—your money—into electric securities. *That gives almost every American a stake in the electric industry.*

In a very real sense, the electric companies represent the savings of the same people they serve. These people have entrusted their savings to business management under public regulation—practical business management that has given the average American home *twice* as much electricity for its money in the last 10 to 15 years—and is producing seven-eighths of the nation's vast supply of power.

"God the Only Cause and Creator" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, December 6.

The Goden Text (Psalms 86:9, 10) is: "All nations whom thou hast made shall come and worship before thee, O Lord; and shall glorify thy name. For thou art great, and doest wondrous things: thou art God alone."

Among the Bible citations is this passage (Isaiah 45:18): "For thus saith the Lord that created the heavens; God himself that formed the earth and made it; he hath established it, he created it not in vain, he formed it to be inhabited: I am the Lord; and there is none else."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 502): "There is but one creator and one creation. This creation consists of the unfolding of spiritual ideas and their identities, which are cognized in the infinite Mind and forever reflected."

Theatre Party Gift to Kids

CHAMBER OF COMMERCE ANNOUNCES PROGRAM IN ABSENCE OF SANTA CLAUS VISIT

A theatre party for the school children of Tecumseh, including those who attend the Henry Ford Schools here, has been announced by the Chamber of Commerce for next week Wednesday afternoon at 2:30 p.m., at the Strand theatre. The public schools will adjourn at 2:15 p.m., W. L. Berkhof, superintendent said, to permit all children to arrive at the theatre in time for the program.

"We are sponsoring the theatre party for the children this year instead of the usual visit by St. Nicholas with his gifts", Wade L. Jones, secretary of the Chamber, said in making the announcement. "This year, with the war and the added duties upon every merchant and business man, it was decided not to decorate the streets, as has been the custom in years gone by, and also, not to plan for Santa's customary visit to Tecumseh preceding the holiday.

"The theatre party is the gift of the merchants and business men and every school child, regardless of age, is invited. Through the cooperation of Walter Nichols, manager of the Strand, we have arranged a suitable Christmas program, and a special feature picture has been selected. Children will not need tickets to admit them to the show, which will last until abou 5 p.m."

The public schools will close on Wednesday afternoon for the Christmas holiday, the recess continuing until Monday, January 4.

The annual Christmas Party for the junior and senior high school students will be held in the gymnasium on Wednesday evening, December 23, it was announced.

Pupils of the rooms of Mrs. Cora Pfaus, Misses Parker, Carlsten and Cole, will present their Christmas program at the school auditorium, at 8 o'clock, Tuesday evening, December 22.

"The Birds Christmas Carol" will be presented by Shirley Teske, Martha Jane Hanna, Jack Whelan, Billy Martin, Richard Haight, Jimmy Breitenwischer, Wilbur Kimball, Martha Ann Hayden, Jennie Bird, Larry Drewyor, Richard Baesley, Joyce Smith, Joan Hart, Cynthia Spafford, Tommy Hamilton, Nancy Wilson and Lee Phibbs.

The remaining 125 children of the four rooms will participate in a candlelight processional in charge of Misses Moulding and Van Domselin, with Mary Jane Hayden as organist. This group will also furnish choir music during the play.

The East Branch P.T.A. will meet Tuesday afternoon at the school and hold a Christmas party for the children of the grades.

A COZY BERTH FOR LAND-FARING SAILORS

These men of Uncle Sam's Navy are but five of the nation's many troops-in-transit to find a home-away-from-home waiting for them in the USO lounges at America's railway stations and bus terminals. These lounges are outfitted with furniture and appointments provided by local citizens committees of USO and in them soldier, sailor, and marine can rest, read and play the radio between trains. USO's troops-in-transit service is one of six special functions assumed at the request of the War and Navy Departments, over and above the original program for clubs near encampments and training stations. USO's six component agencies are the Young Men's Christian Associations, the National Catholic Community Service, the Salvation Army, the Young Women's Christian Associations, the Jewish Welfare Board and the National Travelers Aid Association.

Carol Sing at Strand Dec. 24

WILL BEGIN AT 5 P. M., AND LAST ONE HOUR; GETS VILLAGE-WIDE SUPPORT

The Community Christmas Carol Sing, sponsored by the Tecumseh Music Club, will again be held in the Strand Theatre on Christmas Eve from 5 till 6 o'clock.

This project now has the support of the schools, clubs, churches and the community at large. Walter Nichols, manager of the Strand provides the theatre; high school and grade school groups lead the singing; the churches assist with the film and speakers; the Business and Professional Woman's Club will provide a barrell where gifts for inmates of the county infirmary may be placed and the schools and Recreation Center will broadcast the music to the streets.

The main contribution will be the presence of the public in the theatre to swell the choruses. The songs will be those that are well known and all are invited to spend at least a few moments at the Strand during 5 and 6 o'clock.

The regular meeting of the Music Club was held Tuesday evening at the home of Mrs. Duncan Oliphant, with Miss Virginia Retter and Mrs. Kennard Wise assisting in entertaining. Miss Bernice Parker, leader, gave a talk on "Old Carols and Songs"; vocal solos were rendered by Mrs. Maynard Mulvany, Mrs. Harley McConnell and Mrs. Perry Hayden and carols were sung by the group. FLAGS ARE MISSING

Despite Mayor J. Floyd Elliott's request for the general display of flags in the downtown district every day except Sunday for the duration of the war, but few flags were flying on the downtown street, yesterday. Many merchants are finding it difficult to display the flags due to the formation of ice in the flag staff holes in the sidewalks. A handful of salt is an easy solution to the thawing problem, it was pointed out.

Men in Service Honored by T. P.

PLACQUE DEDICATED AT SERVICE ON FRIDAY; TURKEYS FOR EMPLOYEES

The Tecumseh Products Company paid a fitting tribute to its former employees who have joined the armed services of the government at a ceremony held last Friday afternoon at the plant, dedicating a Service Honor Roll Plaque which contained the names of some 232 former Products workers. The placque, built of walnut and mahogany, is topped by the American flag and at the bottom is shown the Minute Man. The names are inscribed in gold, and other names will be added as the war progresses.

The Rev. Fr. John A. Ross of Clinton, dedicated the placque in a stirring 20-minute talk to the assembly of workers numbering more than 1,000. The Rev. Fr. Ross stressed the need for unity and cooperation to bring the war to a successful conclusion for the Allies and pointed out that without Divine guidance nothing can succeed.

Ray W. Herrick, president of the company, spoke briefly, praising the loyalty and cooperation of the employees. He pointed out that Products munitions are now in every Allied front and on every sea and he declared that the Japs and the Germans are finding out that Tecumseh is doing its bit in the war effort.

Mr. Herrick also announced that the company again this year would present as a Christmas gift to every worker who is the head of a family a large turkey for the holiday table. To unmarried employees who do not have family responsibilities will go candy and cigarettes. The company also has sent gifts of cigarettes to its former employees in service. The turkeys will arrive here the day before Christmas, Mr. Herrick said. He also announced that the company's pay-day would be advanced from the 27th to the 24th of December.

Carl Fosbender, representing the employees of the company, spoke briefly expressing appreciation and presented Mr. Herrick with a gold wrist watch.

The program opened with the singing of the national anthem and there were vocal selections by the Products quartet, made up of Wesley Costigan, Wiley McCann, Neil DePuy and Leonard Weisner. Music was furnished by the Products orchestra. The color guard of the American Legion for the unveiling of the placque consisted of Paul Keyser and Lyman Curtis. The prayer was offered by the Rev. James C. Murdoch of the Presbyterian church and the service closed with the singing of "Onward Christian Soldiers."

The ceremony was held in the company's plant and amplifiers carried the program to all parts of the building.

Idle Penny Search Launched By Schools

The scarcity of copper, so necessary in America's war effort, is prompting the Tecumseh public schools to stage an "Idle Penny Day," tomorrow, Friday, December. The drive has the approval of the director of the U. S. Mint and W. L. Berkhof, superintendent.

Tomorrow, at the schools here, the children will bring with them all of the idle pennies to be found in their homes, in banks, etc., and exchange them at the school for other coins of larger denomination, of which there are sufficient. It is expected that several thousands of pennies will be discovered in Tecumseh, and removed from their storage places such as little glass jars, glass pigs and china bank.

According to a federal announcement, the penny drive is nationwide and is designed to bring out of hiding the millions of idle pennies in children's banks. The enormous demand for the one-cent piece occasioned by sales taxes, vending machines, etc., makes the problem of supplying sufficient coins of this denomination particularly pressing. Last year the mint used 4,600 tons of copper in the production of pennies alone, an amount sufficient to meet the combined requirements of copper for building two cruisers, 120 field guns, 120 howitzers, 2 destroyers, 1,245 flying fortresses.

Rotary Toys "Go Begging" For Want of Suitable Home

Some 40 gifts for boys and girls ranging in age up to 14 years "went begging" for several minutes on Tuesday, following the annual Christmas party and exchange of gifts at the luncheon-meeting of the Rotary Club, at Brees House. A committee, made up of the Revs. James C. Murdoch and E. Thos. Rodda and E. C. Brandt finally was named to make a suitable disposition of the presents which had a total value of about $30.

For many years it has been the policy of the club to hold a Christmas party before the holiday, and each member of the club buys another member a gift suitable for either a boy or a girl. After the arrival of Santa Claus, the gifts are turned over to some worthy organization for distribution on Christmas eve to children who otherwise might not have toys in their stockings.

But this year, it appears to be different. The club was advised that the local Welfare Service has found it unnecessary to function because everyone is employed. A quick search for another outlet for the toys proved futile. Dolls, doll beds, tommy guns and blocks were not exactly the gifts the Rotarians were expecting in their own stockings.

After a 10-minute discussion as to what should be done with the toys the president, S. Henry Smith entertained a motion for the appointment of the committee. The gifts were removed to a storage space pending a final decision.

Manchester Cagers to Play Here Friday Eve

The Tecumseh high school basketball quintet will tangle with the Manchester hatchmen on the local gym court tomorrow evening, the game starting at 8 o'clock. A preliminary game will be played an hour earlier.

The Indians won the third game of the cage season on Tuesday evening at Blissfield when they defeated the Sugar Boys by a score of 39 to 30. It was a close game and a good one, but the host team was not quite fast enough to defeat the Raizk-men.

Tecumseh did not fare so well in its game last week Friday evening on the local court with Clinton. The Indians dropped this game by a score of 25 to 21. Tecumseh was quite definitely out of condition in the Clinton game, the boys being unable to "follow through" to victory.

THE FINAL VICTORY

"There can be no real freedom without free enterprise," said the Monmouth American, Long Branch, New Jersey, in a recent editorial. The American people must keep that thought ever in mind during the war if we are to have freedom after the war.

The people, the American observed, "realize that war necessities justify priorities and rationing and other government restrictions needed to promote the war effort. They are not kicking at that. But they are disgusted at the great bloated bureaucracy that has come into being to waste their money and order them around. They have noted the confusion and blundering at the national capital and the interference with the war effort due to this bureaucracy and red tape. They don't want to be socialized or socialized or bossed around after the war by a lot of politicians."

The greatest achievements in this war are being made by free enterprise. Free enterprise builds the ships, planes and guns. Free enterprise provides the vast bulk of the electric power war industry needs. Free enterprise produces the coal and the oil and the copper and the other essential materials. Free enterprise hauls the freight. Free enterprise is swiftly turning this country into the greatest war machine the world has ever known.

As Herbert Hoover has said, a certain amount of fascism at home is necessary to wage total war on our fascist enemies. But the vast economic controls that government has imposed, and the people have accepted as a war necessity, must end when the war ends. They must be regarded as purely temporary—as an unpleasant but unavoidable medicine we must take in a period of world sickness. If we begin to accept those controls as the nation's normal way of being, freedom—every kind of freedom—will be finished.

In this, as in all issues, the answers must finally be made by the people. If they remember that the government belongs to them, instead of them belonging to their government, the American dream will endure. All those great freedoms for which this war is being fought, will be preserved. And then, and only then, will the final victory be won.

Revenue Slump Worries State

ADMINISTRATION FACES CUT IN EXPENDITURES OR A BOOST IN TAXATION

Lansing, Dec. 17—Two interesting alternatives face Michigan's new administration:

First, imposition of new state taxes to meet an anticipated fall in state revenues during the next fiscal year starting July 1, 1943.

Second, reduction of state expenditures by legislative and executive curtailment or elimination of "less essential" public services.

Somebody is bound to be hurt.

And, furthermore, political alibis will be hard to conjure. Republicans possess overwhelming control of both houses of the legislature. Only one state elective office—state highway commissioner—remeains at the capital today, and he Grand Old Party can't logically pass the buck to him.

The two alternatives, just presented, are based on the assumption this World War II is going to affect state sales tax collecting adversely in 1943 and 1944.

Washington officials, who seem to jump periodically from over-optimism to dire doom, have warned that our 1943 economy will decline to the 1932 low level. And all that despite soaring pay rolls which are flushing the purses of workingman and women.

Privately, several secretaries of Michigan trade associations are forecasting a definite slump in sales. War priorities will hit the hardware, lumber and drugstore business, they concede, when present stocks in many lines of merchandise are exhausted.

One hopeful sign in the state revenue sky is the memory of World War I when industrial workers insisted on spending money, even for $6 silk shirts.

This philosophy of war-time spending goes something like this:

After a depression drouth when people were frustrated from the pleasure of luxuries and non-essentials, you can't expect wage-earners to resist the temptation in 1943 when pay checks are bigger than ever and Washington insists the war might continue for many years.

Consequently, some wage-earners are going to spend money if it is for goods or services which they otherwise normally would not demand.

Liquor sales are soaring. Beer taverns and night clubs are crowded. Youth is enjoying another "last fling." Juvenile delinquency is mounting everywhere.

If this pattern of war-time living is going to prevail, then actual spending will be maintained regardless of restrictions. The state will get its share in taxes. Do you agree?

Because elections are often won on the basis of campaign promises, legislators may not relish the prospect of going to Lansing and cutting "non-essential" expenditures to the bone.

And you can't blame them greatly at that.

The two-year term of a Michigan governor doesn't help matters either, for the governor is only human in hoping he may please enough voters to merit re-election in 22 months. Pleasing one voter by offending another is often the price of economy.

It merely emphasizes that economy in government is easier to talk about, and to write about, than to accomplish.

Some students of government are ready to concede that all this talk of government economy is a childish waste of time. Their argument runs as follows:

Our machine age has caught us in a trap.

When someone invents a labor-saving machine which automatically will harvest sugar beets, for example, replacing human labor such as a Colorado inventor insists he has achieved, government must provide for the workers thus displaced.

And the argument continues by pointing out that social security as we now understand it in the United States, is only a modest beginning of what is to come.

Bismarck introduced social security to Germany as a cure for socialism back in the 1880's. More than a half century ago Germany establish a national system of accident insurance, sickness insurance and old age pensions.

Back in 1908 the British government provided for old age pensions with compulsory deductions from pay of workers and earnings of employers.

In 1911 the British authorized state health insurance on a contributory basis, and followed it up in 1912 with unemployment compensations for 90 per cent of all the working population. It is estimated that one-third of the housing in England is government-financed.

And all this 20 years before F. D. R.!

The advocates of state socialism either on a basis of being inevitable or desirable, point with satisfaction to a report just submitted to British parliament by Sir William Beveridge.

Among many benefits, the Beveridge plan would create a state system of insurance for the public, offering a variety of policies at low premiums. The state would extend security to the individual from birth to death with maternal to burial payments also on a "pay in advance" basis such as we now have for old age pensions.

As Sir Beveridge sees it, here is the answer to "freedom from want" as proclaimed in the Atlantic charter. Obviously it has a tremendous propaganda value to the man and woman who are sacrificing heavily to win this war. Whereas the last war was motivated by that paradox of ideas—a war to end war—this conflict would offer the appeal of a war to secure individuals freedoms.

Former President Herbert Hoover, addressing the manufacturers in annual session in New York City recently, called attention to the following change.

In the last war we trained and equipped six million men of whom we transported two million overseas, all of this being accomplished by a Washington bureaucracy numbering 425,000 persons.

In today's war, we have trained around four million men, of whom less than one million are understood to be overseas, while the federal bureaucracy is a veritable army in itself, more than 2,000,000 persons.

As Hoover sees it, the government is top-heavy. But, of course, many things have happened since 1918.

Every time a new public service is authorized, whether it be public welfare or unemployment compensation, government assumes a new obligation. More persons are needed to provide for the new benefits.

This trend has been clearly evident in all recent state administrations, Democratic and Republican.

Now the question arises: Can the 1943-45 state administration in Michigan halt the swing? Will the voters back at home favor curtailments in services which have brought new benefits into their lives? Can state aid to local government be reduced?

We don't envy the responsibility of the Michigan state legislators and state officials in wrestling with the problem. It's a tough nut to crack.

"Is the Universe, Including Man, Evolved by Atomic Force?" will be the subject of the Lesson Sermon in all Christian Science churches throughout the world on Sunday, December 20.
The Golden Text (Acts 15:18) is: "Known unto God are all his works from the beginning of the world."
Among the Bible citations is this passage (Hebrews 11:3): "Through faith we understand that the worlds were framed by the word of God, so that things which are seen were not made of things which do appear."
Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 295): "God creates and governs the universe, including man. The universe is filled with spiritual ideas, which He evolves, and they are obedient to the Mind that makes them."

Postal Sales Hit New High

BUSIEST CHRISTMAS IN HISTORY OF TECUMSEH OFFICE REPORTED BY BOWEN

The busiest Christmas season in the history of the Tecumseh postoffice. That was the way Postmaster Percy A. Bowen summed up his work last evening as the local office prepared to enter the 48-hour period previous to the holiday—a day of rest for the postman.

"We have sold approximately $6,000 one and a half cent stamps and I am keeping my fingers crossed that we do not run out," the postmaster said. The office had 75,000 of the stamps about two weeks ago, and they are selling at the rate of four to five thousand a day. Some days, it was said, as many as 9,000 letters were entered at the local office, to say nothing of the hundreds and hundreds of packages.

"In the last six days," Mr. Bowen said, "the local office has cancelled 62,530 pieces of mail, not including parcel post. I don't know how many thousands of letters and greeting cards we have received at this office for distribution in Tecumseh and on the routes, but it is many, many thousands. I believe that the office has established an all-time high record for the final quarter of the year, our receipts at the present time being more than $700 ahead of a year ago."

Mr. Bowen pointed out that the office will not be open on Christmas day, and that there will be no mail delivery on the holiday. Christmas, so far as the mail man is concerned, is a holiday.

"We are keeping up with our work each day," Bowen concluded. "We were cleaned up with the mail last night, and we will be again tonight, if nothing happens. We will do our best to get every piece of mail out of the office before the holiday, and I believe that we will be successful."

The postoffice is open from 7 o'clock in the morning until 6 o'clock in the evening. The office does not close over the noon hour.

Children To Be Guests At Theatre Party Today

Some 600 children of the public schools and the Henry Ford schools here will be guests of the Tecumseh Chamber of Commerce at a Christmas party at 2:30 this afternoon at the Strand theatre. The party is given by the Chamber in the absence of the usual visit here at Christmas time by St. Nicholas, with candy and popcorn for the kiddies.

"This year, due to the war, Santa Claus will not pay his usual visit to Tecumseh, before the holiday," Wade L. Jones, secretary, said. "It is for that reason that we have arranged the party for the children, and they are all welcome, from the first to the twelfth grades."

The theatre party will bring the school session to a close for the holidays, the recess ending on Monday, January 4.

The closing Christmas party at the high school will be this evening when a dance will be staged in the gymnasium.

CHILD HIT BY CAR

Barbara Schuch, 10, niece of Mr. and Mrs. Lynn Harris, who makes her home here, was injured Saturday evening when she was struck by a car driven by a Mr. Vincent of Pontiac. The accident happened near the corner of Pearl street and Chicago boulevard, as the youngster dashed across the street, and directly into the path of the car. She suffered an injury to her right arm and a cut over one of her eyes. She was taken to the offices of Dr. M. R. Blanden for treatment.

OFFICERS NAMED

Tecumseh Lodge, Knights of Pythias, has elected the following officers for the coming year: Duncan Oliphant, Chancellor commander; Hoyt Raymond, vice chancellor; Forest Abner, prelate; A. B. Harding, master at arms; Alfred Beckman, keeper of records and seals and master of exchequer; Lynn Hubbard, master of finance; H. H. Van Vleet, inner guard; Leroy Matthews, outer guard; Fritz Gygi, trustee for three years.

Herrick Is Honored By Manufacturers Ass'n.

Ray W. Herrick, president of the Tecumseh Products Company, was elected vice-president of the Lenawee County Manufacturing Association, at a meeting at the Chamber of Commerce in Adrian, last week. W. J. Wisner of the American Chain & Cable Company, Adrian, was named as president. C. S. De Lamater of Adrian, secretary, and A. D. Billings, acting secretary.

The board of directors of the association will meet on January 6 and it was decided that a general meeting of the membership would be held once each month in the new year.

Ration Board Chiefs Resign

BRADLEY AND NEMIRE QUIT COUNTY UNIT; MRS. RENTSCHLER IS NEW SECRETARY

Harry Bradley, chairman, and Guy E. Nemire, secretary, of the Lenawee County War Price and Rationing Board at Adrian, tendered their resignations when the board met in regular session, last Thursday evening Mrs. Esther Rentschler, Mr. Nemire's assistant, was named as the new secretary, subject to the approval of the Detroit civil service board. No successor to Mr. Bradley has been appointed.

Mr. Nemire told the board that he expected soon to accept another position and that he desired a brief rest before he assumed his new job. Mr. Bradley told the board that his duties with rationing conflicted with his office as county treasurer. Mr. Bradley thanked the board for its spirit of coopeation when he tendered his resignation.

It was announced that the rationing board offices will be moved on Saturday of this week from the second floor of the county building to the old National Bank of Commerce building, East Maumee street, Adrian. It is believed that the new quarters will be much more convenient for the public and will permit rationing board employees to better carry on their work. New office hours were announced, from 8 a.m. to 5 p.m. daily through Friday, with the office closing at noon on Saturday. The office is open during noon hours.

The board has practically completed the processing of supplemental gasoline rationing forms, but new problems that come up daily keep members very busy. Fuel oil rationing also has been completed in the county, it was said.

County Bond Sales For December $217,000

United States War Savings Bonds totaling $217,000 should be purchased in the month of December by the residents of Lenawee county, according to Charles L. Robertson of Adrian, chairman of the War Savings committee of the county. War Saving Stamps also count in this amount.

The quota appears to be some $43,000 smaller than that for the month of November but, it must be considered that only E bonds are counted in the total, the sale of other bonds going directly to the credit of the treasury department. Mr. Robertson believes that the county is faced with an extra effort to put the December sale over the top, because about 40 per cent of the county's sales have been in F and G bonds.

Tecumseh's total during the month has been fixed at $22,400, Clinton's at $9,000, Onsted's at $2,200 and Britton at $1,700. Adrian leads the county in total quota, $126,000.

Night School For Grownups

TECUMSEH PUBLIC SCHOOL AUTHORITIES ANNOUNCE ADULT SCHOOL PROGRAM, BEGINNING JAN. 4

Tecumseh public school authorities today released details regarding an expanded night school program for adults in this area which will commence on Monday evening, January 4, and will extend over a period of 15 weeks. Preliminary details regarding the program follow:

A class in beginners typing will be organized for adults and out-of-school youth who desire to learn the skills involved in this subject. Persons who have had previous training in typing and desire advanced work in the field will be admitted to the class if the enrollment of beginning typists does not absorb, completely, the available equipment.

The typing class will meet on Monday and Wednesday evenings of each week at 7:30 p.m. The period of instruction will extend to 9:30 p.m. and the equipment will then be available for practice purposes for an additional hour for those adults who enroll only for typing.

A class in either shorthand or bookkeeping will be offered as a second commercial subject, the final choice being determined by the number of requests which are received. Persons interested in either of those subjects are advised to notify the school authorities by sending a card to the office of the superintendent immediately. The final decision regarding the question, as determined by the demand, will be announced in the next issue of The Herald.

This second commercial class will meet each Monday and Wednesday evening from 8:30 to 9:30 p.m. An enrollment fee of $2 per person will be charged for each course. Neville L. Hart, head of the local commercial department, will serve as instructor.

A second phase of the night school program will consist of a physical fitness class for men. This class will serve a a counter-part in the field of health to the class in nutrition which has been offered to the women of the community. The class will be held in the high school gymnasium each Monday and Wednesday evening beginning January 4, and will extend over a period of 15 weeks. The carefully planned activities which have been selected to fit the needs of those who enroll will be under the direction of Fred Raizk, athletic director of the Tecumseh high school. An enrollment fee of $2 per person will be charged to partially cover the cost of the course.

Plans are also being formulated for the organization of classes in farm production for the farmers in the Tecumseh area. These classes will be offered through the local agriculture tiepartment under the direction of George E. Parsons and in cooperation with the Tecumseh and Tipton Grange groups. Due to restricted travel it has been proposed that the classes meet in the grange halls. A final decision regarding this matter and further details regarding the nature of the courses which will be offered will be announced at a later date.

22,500 Pennies Are "Found" By Children

School children in Tecumseh turned in 22,500 pennies last Friday at the office of Superintendent W. L. Berkhof, their part of the nation-wide program to aid the government in its search for idle pennies manufactured from copper. The pennies were exchanged at the school for money of other denomination and were turned over to the bank here for redistribution.

Copper, badly needed in the war effort, is running low and as a result the federal treasury urged that children and adults who have penny banks that are seldom opened more than once or twice each year, open them now and replace the pennies with money of other denomination. The program, it was believed, would relieve the need for the casting of more pennies at the mint, and would permit the use of copper for war effort instead of for money.

Jack the Peep Is Sought Here

POLICE ON LOOKOUT FOR MAN WHO PEERS INTO WINDOWS, RATTLED DOORS

State and village police and at least a score or more of Tecumseh women are on the lookout for a "Jack the Peep" who has frightened at least 20 women in their homes here during the past two weeks. Officers have been able to obtain a description of the man, but have been unsuccessful in apprehending him.

Police say that the "peep" has been operating here for between two and three weeks, seldom for two consecutive nights in the same section of the village. He sometimes peers through lighted windows at women and girls who are in the house he has chosen to visit, and sometimes he ventures into the porch and rattles the door. Never has he entered a home, officers say.

"I was lying on my davenport reading," one woman said, "when suddenly I was aware that someone was looking at me. I looked toward the window and saw a face. The man then turned a lighted flashlight toward me and then disappeared."

In another section of town, a woman reported that the "peep" rattled the rear door of her home twice during one evening. The woman was addressing Christmas cards at a table, and her husband was in bed on the second floor.

Police say that they have been able to obtain a part description of the peeker and from every section of town the description is the same. It is expected that an arrest will be made shortly, it was said. Persons bothered by the intruder are asked to call police immediately in an effort to hurry up his apprehension.

CHRISTMAS, SAD BUT NOT HOPELESS!

The people of the United States celebrate their second Christmas of the present war this week. The Herald wishes that its readers and all the citizens of our great republic will have a joyous holiday which they will long remember.

We are deeply conscious of the sorrow that the war brings into millions of American homes and, yet, we do not think it inappropriate to express the sentiment. Nearly five million of our finest men are in the armed services and many homes will miss loved ones who, in camps and on fields of battle, stand guard over all that is dear to us.

Christmas has brought cheer to the hearts of countless children for many years. It is a season of deep reverence to those of the christian faith. To countless others it expresses the deeper hopes of human beings, that peace will come to this good earth and that men everywhere will some day learn to live as brothers.

Certainly, our thoughts and our prayers, in this Christmas season, will go wherever our boys may be, and especially precious will be our faith that, in God's good time, they will come home. Nevertheless, despite our faith, we know that some will not return and this will be the last Christmas that some brave Americans will observe.

It is not for man to discern the workings of Providence or to anticipate unduly the price that must be paid in suffering, in blasted lives and be torn hopes of human beings. All that we can do, in the face of such a threatened catastrophe, is to put our hope in God and trust in the Divine wisdom that uses all men to complete the great purpose of human existence.

So, this Christmas season that finds older persons conscious of sorrows that impend, should persuade us to be more charitable to those who unfortunate and more willing to let the children of the earth, wherever possible, enjoy happiness that is unequalled throughout the year.

With supreme faith in God and the work of men who live in the service of the Divine power let us resolve to put aside our fears and live bravely n the hope that much of what we fear will not come to us. Let us reverently observe Christmas, 1942, in the blessed assurance that millions now alive will, in future years, face happier Christmas days.

Toys for the Kiddies and VICTORY BONDS for Mother and Dad

The true spirit of Christmas is reflected in the faces of children. It is the duty of every American to keep their faith and hopes alive by keeping the Christmas lights burning.

Winning this war, working, sacrificing, fighting and dying if need be, is our job. To our children will be given the rich rewards of our VICTORY and the work of maintaining the peace. *But we must first win it.*

RIGHT NOW your Government needs nine billion dollars to help win the war. Within the next few weeks a representative of the NINE BILLION DOLLAR VICTORY LOAN DRIVE, now being conducted throughout the country, will call on you. He will invite you to do your part by INVESTING YOUR SAVINGS and IDLE FUNDS in the special NEW VICTORY LOANS.

Welcome the Victory Loan representative. Invest to the limit. If these new Victory bonds are not a good investment, then nothing you now own (the deed to your house, the finest stock certificate) is worth the paper it is written on.

Celebrate Christmas this year by giving the gift with a future — A VICTORY LOAN.

Remember this, Your Government isn't asking you to GIVE anything to the Treasury. These NEW VICTORY BONDS pay a good rate of interest as long as you hold them. And they are marketable at any time.

If you miss the Victory Bond worker ask your banker or securities dealer for full particulars. Your Government needs the loan of your dollars NOW if America's full strength is to be flung into the scales and VICTORY WON!

CHRISTMAS AND FRIENDS GO HAND IN HAND . .

All too often we take our friends for granted. We are aware of the fact that every day sees some evidence of the friendships of the people whom we strive to serve and too frequently we neglect acknowledging these kindnesses.

But at Christmas, when we pause in the busy whirl of everyday routine things, we become conscious of our shortcomings, and wish to convey in this message our heartfelt thanks for the good things that have come our way.

To you, our friends, we wish you a Happy Christmas and a New Year of Health and Prosperity.

WE CAN think of no finer Yuletide sentiment than the old familiar "MERRY CHRISTMAS." We never grow tired of saying it to our friends nor do we grow tired of hearing it from others. It is the one universal greeting that carries with it the thought of others and the appreciation of fine friendships and associations.

It is this sentiment that forms the background of our thinking of you at this glad time of the year. We want you to know that when we say, "MERRY CHRISTMAS," we include our thankfulness for all past favors. The best of everything to each of you.

Once A Year..

THERE COMES AT LEAST one time during the year when we pause to consider the past events and courtesies for which we are thankful.

To us, that time is Christmas. And those things for which we give thanks are the many opportunities we have had to serve the fine people of this area.

These associations have meant a warmer and friendlier season—they have made possible a most successful year and we trust that these fine associations will be influential in making possible the continued increase of friends and the further growth of our business.

In our own way, let us say, "Thank you" and wish you a sincere Greeting. May the blessings of the Christmas Season be yours and may the New Year bring you ever so much happiness and prosperity.
